## YOUNG MEN NEEDED TO WIN BIG WAR SAYS BAKER

Secretary Tells House Military Committee of Conditions in France; Oppose Increasing Draft Ages to 40, 45 or 50

ARTILLERY, AVIATION SCHOOLS ARE FINEST

Emphasizes the Necessity of All the American Resources Being Thrown Into Conflict; Must Deliver Speedy Punch

BY UNITED PRESS  
LEASED WIRE TO TRIBUNE

WASHINGTON, April 23.—"Men of action—young men—are needed for America to win the war.

This was the belief expressed by Secretary Baker to members of the House military committee today. He added that his experiences and observations while abroad convinced him that the success of the war depends on young, rather than old men.

His statement was regarded as indicating his disapproval of increasing the draft ages to 40, 45 or 50, as has been suggested recently.

Baker did not go into details as to the proposed size of America's army today and was not questioned as to whether sufficient men can be obtained under the present draft ages. This question with many other appropriation matters will be threshed out at a later session.

A most promising picture of the vast preparations the United States is making in France for the fighting men sums up the secretary's talk before the committee today.

EXTENSIVE STORAGE FACILITIES IN FRANCE

"Our storage facilities over there," he said, "if lined up, would be a building fifty feet wide and two hundred miles long—practically, the distance between Washington and New York," Baker said.

The artillery and aviation schools the United States has established in France are absolutely the finest in the world, Baker declared, and have won the admiration of our allies. American artillery and aviation will be two of the leading factors in winning the war, he predicted.

Although very optimistic over the general situation, Baker emphasized that the end of the war probably will depend upon the throwing of American resources—both men and supplies—in the fighting area, in great quantities.

"He made it clear," said Representative Kahn, "that America must deliver a great big punch before the war is over."

ALLIES NOT SHAKEN AS TO FINAL OUTCOME

"The crucial times have failed to shake the firm belief of every allied statesman and military man as to the final outcome," Baker said before the executive session began. "The allies now, probably for the first time in the war, are working as a unit."

The secretary was profuse in his praise of the individual fighting men. "They are wonderful," he said. "Every man of our force seems so active, so eager to fight. Every man seems to be moving twice as fast over there as people do over here. They are an inspiring sight."

Members of the committee were plainly pleased with Baker's report.

"The keynote of the secretary's review is that there are no pessimists over there," said Representative Anthony of Kansas. "They are all confident that victory will come to the allies, according to Mr. Baker."

Secretary Baker will appear tomorrow before the Senate military affairs committee, it was announced this afternoon. It was expected that Baker would be asked by the committee to state his position on phases of the new army policy now under consideration. Whether the hearing would be secret will be decided according to Baker's wishes when the committee meets.

## Concrete-Loaded Craft Are Sunk in Offing at Ostend and Zeebrugge

LONDON, April 23.—The German submarine bases of Ostend and Zeebrugge, on the Belgian coast, were raided by British naval forces this morning, the admiralty announced.

The British forces consisted of auxiliary vessels and six obsolete cruisers.

Five of the obsolete vessels were filled with concrete and were run aground and blown up to block the harbor.

The raid met with a "reasonable measure of success," the official statement said.

The complete details were not available when this despatch was written, but the admiralty announced that a further report would be made when the returning ships arrive at their base.

The raiding vessels were protected by covering ships. (By covering ships the admiralty evidently means

The British foray against the Belgian coast was the first attempt, so far as publicly known, to bottle up the submarine bases at Ostend and Zeebrugge.

# RAM CHANDRA KILLED IN COURT ROOM; HINDU TRIES TO SLAY JOHN W. PRESTON

## ASSASSIN IS SHOT DOWN BY MARSHAL

(Continued From Page 1)

and Attorney George McGowan, the latter being counsel for many of the Hindus.

Chandra was standing between Locke and McGowan, talking with them and commenting on the address of United States Attorney Preston, who is closing the case for the government, when Singh advanced behind him.

Chandra was shot in the back without even seeing his assailant. After firing the first shot, Singh proceeded to empty his revolver. He was still shooting when Marshal Holahan's bullet laid him low.

Singh was still breathing and an ambulance was summoned. Singh died immediately. Before the ambulance arrived, Chandra, too, was dead.

Holahan's bullet narrowly missed Moore.

### CRASH INTERRUPTS PLEA OF ATTORNEY

During one of the tensest moments in the trial this morning, while United States Attorney John W. Preston was closing his argument for the government, designating Attorney A. P. Black as false to his oath as an attorney at the bar, a crash which resounded through the building directly over Judge Van Fleet's court nearly precipitated a panic and brought the crowded courtroom to their feet with blank faces. Audible remarks, "It's a German bomb," were heard.

Coolness on the part of court attaches and soldier guards was followed by a hurried investigation, during which none was permitted to leave the courtroom, and it was found that long sections of file cases in room 401 had been thrown to the floor through some unknown agency. An investigation was immediately begun as only the custodian has access to the room.

The United States attorney continued his argument with a resume of the entire case in answer to eleven attorneys for the defense who have claimed lack of guilty knowledge on the part of their thirty-one Anglo-Saxon and Indian clients to incite India to an armed revolution against British rule.

Captain Edwin Deinat and Hein-

## HISTORY OF HINDU CASE

The so-called Hindu conspiracy case had the world for its stage. It brought to light a movement which admittedly was active simultaneously in many world capitals to overthrow British rule in the Punjab, and to extend revolutionary control over it should include every principality in the vast Indian empire. The government of the United States acted because it was alleged that American soil was being used to set up a military expedition against a friendly power, and dependence of the conspirators there were more than thirty.

The case was more an airing of several separate conspiracies than a detailing of one specific plot.

The prosecution brought in the names of many noted men as principals, agents, or confidants in these alleged conspiracies: Count von Bernstorff, former German ambassador to the United States; his fellow countrymen, Count von Luxburg, formerly German Ambassador to the Argentine Republic, and Dr. Alfred Zimmerman, once German Foreign Secretary, were alleged in the testimony to have been members of the plotters, supplying funds, advice and the open door to men in high places, letters to revolutionary leaders and the support of Sir Rabindranath Tagore, British Indian poet, but not for war of bloodshed.

Gun running under German-Hindu auspices was the whole story of the schooner Annie Larsen and the steamer Maverick, as told by the government's witnesses. Evidence was offered to show that the schooner left San Diego, Cal., March 8, 1916, taking a \$300,000 cargo of arms and ammunition to the bleak island of Cocco, off the Lower California coast, where the Maverick was to take over the cargo and run it into Singapore. The arms, according to the testimony, were paid for by German government agents.

### MAVERICK IN WAR

The Larsen waited a month for the return of supplies at Acapulco, Mexico, and Elbo were severely arraigned for their participation in conveying sailing orders to the filibustering crewmen Maverick with its cargo of arms and ammunition when it arrived off Hilo, and Bernard Manning and J. Clyde Hizar of the San Diego group of defendants in the plot were charged as having guilty knowledge in a "dirty German scheme." Elizar being specifically mentioned when the United States attorney said: "I do not think that perjury has ever been more clearly represented than in the testimony of J. Clyde Hizar."

Attorney A. P. Black, representing Dinat, Elbo, Hizar and Manning, then received the attention of the government prosecutor who he said, "This man is a disgrace to the legal profession and prostituted his oath of office as an officer in this court, and has been traitor to his country in his endeavor to conceal from secret service operators Webster information which was needed by this government on the plea that he would have been false to his client."

Franz Ropp, former German consul general in San Francisco.

Wilhelm Von Brincken, military aide to the consul, who pleaded guilty, and is awaiting sentence.

Dr. Chandra K. Chakravarty, alleged Hindu agent of the German government in New York and Washington.

George Rodak, German consul general in Honolulu, who pleaded guilty and was fined \$10,000.

H. A. Shroeder, Rodak's aide, who pleaded guilty and was fined \$100.

Robert Capelle, former agent for the North German Lloyd Steamship company in San Francisco.

Taraknath Das, alleged head of the Persian-Chinese-Japanese military junta.

Ram Chandra, publisher of the "Ghadar" revolution and head of the "Ghadar" party.

H. H. Von Schack, an aide in the German consulate in San Francisco.

Bawani Singh, Hindu poet and philosopher, and alleged architect of the revolution in various world capitals.

Henry Kauffman, chancellor of the German consulate in San Francisco.

Edwin Deinat and Heinrich Elbo, commanders of German merchant vessels turned at the Hawaiian Islands.

Walter Gehrke, submarine officer of the German gunboat Geier, interned at Honolulu.

John F. Craig, head of the Craig Shipbuilding yards, Long Beach, Cal.

J. C. Hizar, city attorney of Coronado, Cal.

Charles Lattendorff, alleged agent of the German consulate in San Francisco; Joseph L. Bleyle, a San Francisco shipping broker.

Bernard Manning, alleged agent of the Mexican government in the Maverick transaction.

Horace J. Hart, a San Francisco shipping man.

Louis T. Hungster, a San Francisco admiral, lawyer.

Norris Stock von Gottzeim, alleged to have acted as an agent for the German consulate in San Francisco with the "Ghadar" faction.

Gobind Bahara Lal, alleged Hindu agent for the revolutionaries in London.

Thirteen alleged Hindu representatives of the revolutionaries in the Orient and elsewhere.

Many others were indicted, but not tried.

### Federal Jury Indicts Rose Pastor Stokes

KANSAS CITY, April 22.—An indictment charging Rose Pastor Stokes, Socialist, and wife of a New York multi-millionaire, with violation of the Federal espionage law, was returned today by the Fed., 1 grand jury. It was understood the indictment consisted of three counts. Mrs. Stokes has been in Kansas City since Sunday to answer the indictment. She is out on bonds of \$10,000, having been held in hearing before a United States commissioner here.

The indictment is a result of statements by her in a speech here before the women's dining club, when she charged the war against Germany is being waged in the interest of capitalists.

The boys gave the names of Victor Vitruv and Joe Conzenberg. The latter asserted that he chased a man suspected of having robbed a room and of having been stabbed by a woman guest.

Seattle Towns Hit Hard by Casualties

THE HAGUE, April 22.—The German provincial towns are greatly disturbed over the enormous casualties resulting from the west front offensive. The papers are filled with obituaries.

As an example, during the first five days of the offensive the small frontier town of Beaufort had 67 dead and Gronau had 27.

## For Constipation! Physic Purge or Laxative?

Everyone now and then becomes constipated, and millions are chronically in that condition. The perplexing question arises—what to use.

Purgatives and cathartics are drastic and usually cause a reaction. Saline waters are rapid in action but do no more than empty the bowels.

Just as certain an effect, and certainly a much more pleasant one, can be obtained by the use of a combination of simple laxative herbs with pepsin sold by druggists under the name of Dr. Caldwell's Syrup Pepsin. It acts gently, without griping. It is an especially ideal medicine for children, women, old people and others who find purges too powerful.

Only a teaspoonful is required, and by morning the movement is free and complete. A bottle in the house is insurance for the whole family against constipation, indigestion, headache, flatulence and other digestive ills.

The druggist will refund your money if it fails to do as promised.

**Dr. Caldwell's**  
**SYRUP PEPSIN**  
*The Perfect Laxative*

**FREE SAMPLES**—Dr. Caldwell's Syrup Pepsin is the largest selling liquid laxative in America. If you have never used it, send your address for a sample bottle to Dr. Caldwell, 468 Washington St., Monticello, Ill. If you have babies in the family send for a copy of "The Care of the Baby."

**NO INCREASE**  
In spite of enormous increased laboratory costs due to the war the manufacturers of Dr. Caldwell's Syrup Pepsin are increasing their profits and absorbing the war taxes, so that the family laxative remains at the same low war price of 50c and \$1 a large bottle. So add a large bottle to your medicine chest for 26 years.

## Bill Hart to Rouse People Here to Buy Liberty Bonds

Senator Kenyon of Idaho Will Also Be Speaker  
at Big Auditorium Rally Tomorrow Night

Liberty bond slackers are being discovered in all parts of the business district of Oakland, according to E. Perkins, chairman of the business men's committee of the Liberty loan committee.

Perkins stated this morning at the Liberty loan headquarters that an accurate list of names of slackers of this character are being compiled and will be turned over to Executive Chairman Joseph H. King of the local committee.

King has stated that he will in turn place these names in the hands of special deputies, who will conduct an investigation into the war sentiments of such individuals. King has decided upon a vigorous campaign against the third Liberty loan slackers, one that will last for a few days.

Alameda county is nearly \$4,000,000 behind in its subscriptions to date. The following statement of allotments and subscriptions shows the status today.

Town	Quota	Subscriptions
Oakland	\$6,860,500	\$3,182,950
Berkeley	1,159,123	1,363,950
Alameda	481,723	263,300
Livermore	132,023	191,300
San Leandro	214,123	175,150
Hayward	217,050	145,710
Centerville	76,875	63,300
Hayward	87,053	75,250
Alameda	52,350	50,250
Irvine	15,425	18,350
(Mission San Jose)	24,150	20,150
Emeryville	41,100	27,000

Totals ..... \$9,442,500 \$5,517,550

W. S. "Bill" Hart, the robust two-fisted fighter of the screen, who comes to the Auditorium tomorrow night under the auspices of the Oakland Liberty loan committee, is reported to have been instrumental in enlisting many hundreds of thousands of dollars' worth of Liberty bonds throughout the West since the moving picture star began campaigning in behalf of the Liberty loan drive.

These reports have been received during the past few days by the local Liberty loan committee from similar organizations in Utah, Idaho, Montana, Washington and Oregon. Everywhere, the reports state, Hart has appeared before big gatherings and in many instances thousands who despaired to hear him have been turned away owing to the incapacities of the halls in which he appeared.

Owing to a heavy demand for seats at the Auditorium for tomorrow night's Hart meeting which have been made upon the local Liberty loan committee, it was necessary this morning to issue a general statement explaining that the coming event is one of free admission. No tickets will be sold, says the statement issued by the committee; those who come the earliest will get the seats; others will be obliged to stand.

### EXPECT HEAVY SALE

It was stated this morning at the Liberty loan headquarters that the general committee anticipated a heavy sale of Liberty bonds during the meeting, and it quite possible that many who have withheld their purchases will subscribe during the Hart meeting, and help boost Oakland's present total subscription, which is to date more than four million dollars under the required amount.

That Hart is working with great enthusiasm in behalf of the Liberty loan drive in the West is indicated in a telegram received this morning from the popular screen star by Executive Chairman Joseph H. King of the local Liberty loan committee. Hart's telegram was despatched from Portland, where he spoke yesterday. It read as follows:

"Personal subscription for Liberty bonds of the third issue was \$105,000. I cannot wear the khaki myself, but I am going to make my money fight for me with the boys who are givin' themselves up to fight for us and make this world a safe place for every American to live in. Leave tonight for Oakland to fulfill my campaign plans in accordance with the request of Secretary McAdoo. My one regret is that I cannot do more." WILLIAM S. HART.

### KENYON TO SPEAK

An added attraction with "Bill" Hart will be the presence of Senator W. S. Kenyon of Iowa, who recently returned to the United States after a visit to the battle fronts in Europe with the congressional party. Senator Kenyon is heralded as an orator of marked ability. The fact that he comes to Oakland with first-hand information about the subject which is stirring the nation so vitally adds considerably to the interest of tomorrow night's gathering.

In connection with the meeting Wednesday night there will be a musical program, consisting of vocal numbers, singing by the audience, selections by the Technical high school band and an address by Executive Chairman Joseph H. King of the Liberty loan committee, who will also preside during the evening.

Alameda county has subscribed 51 per cent of its allotment, according to Glenn C. Barnhart, campaign manager of the Liberty loan committee, which fact is featured by six cities of the county being "over the top" with their quotas, namely, Irvington, Livermore, Alameda, Berkeley and Pleasanton. The cities achieved this distinction in the order named. Commenting further upon the county situation as it presented itself this morning, Barnhart said:

"Half of the county districts have subscribed their quotas and 51 per cent of the county quota has been attained. This situation, under ordinary circumstances, would be regarded hopefully, but in view of the fact that the burden of the county's successful completion of the drive rests upon Oakland's shoulders we cannot enthuse over it. Oakland still is nearly four million dollars under-subscribed."

"Oakland has subscribed only 42 per cent of its allotment. Nevertheless the city has to its credit more actual cash on deposit in the banks for the sale of Liberty bonds than the balance of the banks of the county taken as a whole. The county total to date (Monday) stands \$8,984,100, which sum Oakland has subscribed \$2,812,500."

### LARGER SUBSCRIPTIONS

Among the larger subscriptions recorded yesterday was that of Mr. John Charles Adams, who purchased \$15,000 worth of Liberty bonds through the Farmers' and Merchants' Bank. The United Cigar Stores purchased \$2,000 worth.

It was reported at the Liberty loan headquarters this morning that the employees of the Pittman company who work in the yards as car cleaners and a small group of porters subscribed \$4,100 to the third Liberty loan yesterday afternoon. Chairman Jack Martin of the men's committee, who made the report, credited it largely to the efforts of Frank L. Wood, general superintendent of the company, who arranged to have the employees make their payments through the company by small deduction.

## VON RICHTHOSEN SHOT IN HEART

WITH THE BRITISH ARMIES IN FRANCE, April 23.—A British lieutenant crawled through the barbed wire the Germans purposely laid down around Baron von Richthofen's wrecked machine, then crawled back with the famous aviator's body.

Richthofen was buried last evening with full honors.

Until further inquiry is made, the details of Richthofen's death are uncertain. He appeared at a height of about 5000 feet over the British lines, some 1000 feet detached from his famous "circus."

A fast British machine took on Richthofen in a frantic battle lasting seven or eight minutes, both crashing about in the sky in an amazing exhibition of skill, apparently falling headlong a thousand feet at time to get a favorable position,

richthofen was shot down at 500 feet over the British lines. Rifles and machine guns blazed away from the ground. The aviator's machine crashed to earth. The Germans immediately put down a barrage around the plane, continuing it all afternoon. The British Lieutenant who crawled through the barbed wire found the body sitting upright in the machine, a bullet through the heart.

By Rudolph Franke Jr., making a total of \$19,100.

Hungarian People Cry "Abas Tisza"; Demand Reforms

(By United Press)

ZURICH, April 23.—Two hundred thousand persons participated in a demonstration for electoral reforms at Budapest yesterday, it was learned here today.

Five thousand marched to the Palace Club shouting, "Abas Tisza!" Work and traffic was halted.

Similar demonstrations were conducted in various towns Sunday.

Premier Von Seydlitz told the Polonaise leaders today that Galicia would be restored to Poland.

## City Employee Is Styled Non-Resident

John G. Little lives at 332 Glendale avenue, Oakland, but he is registered at 244 Kearny street, San Francisco, for voting purposes, according to a complaint that has been made to Auditor Thomas Boyle of San Francisco by the Municipal Civil Service Association of that city in an effort to have Boyle refuse to pay Little a salary as structural engineer for the Board of Public Works. Little was appointed to the place from the eligible list April 8. He was No. 2 on the list and No. 1 is not in San Francisco. Little received the place. Number 3 is most active in the fight against Little.

## Negro Who Killed Sheriff Is Lynched

LEXINGTON, Tenn., April 23.—Berry Noyes the negro who shot and killed Sheriff W. E. McBride last Saturday is dead here today, victim of mob violence. A mob seized the negro and hanged him in the court yard.

## Cabinet Organized; Heads Are Named

LIMA, Peru, April 23.—The cabinet, which resigned on April 17, has been reorganized. Victor Maurtua has accepted the portfolio of finance and Clement J. Revilla will be minister of public works.

Cordially yours,

MRS. L. A. SINGLETON,

1504 Eleventh avenue,

OTAWA, April 23.—The following are among those mentioned in today's casualty list.

L. Charlton Mount, Los Angeles.

Thanks Tribune for Bond Prize Money

EDITOR TRIBUNE: Please accept my sincere thanks, appreciation and acknowledgement of the check for \$100 awarded as second prize in the "Bond Slogan" contest.

Cordially yours,

MRS. L. A. SINGLETON,

This splendid suit for "the great outdoors" has four smartly finished military pockets, pinch-back, all-around belt, and collar that may be worn up or down, as pictured. The shirt is practical, well-cut tramping style, and has two military pockets ..... \$17.50

</

# BULGAR, TURK DECLARATION HELD UP AGAIN

WASHINGTON, April 23.—Vigorous efforts to obtain from the administration a clear statement of reasons why there has been no declaration of war against Bulgaria and Turkey, failed in the Senate this afternoon.

A substitute resolution offered by Senator Knox of Pennsylvania calling upon President Wilson to state, if not incompatible with public interest, what steps it is proposed to take in declaring war against Bulgaria and Turkey, went to the calendar at the expiration of the morning hour without final action.

Senator Knox's resolution was offered as a substitution for a resolution offered by Senator Brandegee of Connecticut that urged the foreign relations committee to take "such action" on a resolution already before it which would call for a declaration of war against Bulgaria and Turkey.

Though equipped with all necessary powers for the first time since the war began, the government today began a more vigorous campaign against agents and plotters.

With President Wilson's signature to the sabotage bill and with the espionage and alien laws alien measures now law, department of justice officials informed congressional leaders they believed they now had all the powers they need to cope with the Germans within the country.

The Chamberlain says the military courts-martial jurisdiction over espionage cases now tried by civil courts was dead today as a result of President Wilson's personal opposition.

While the President's influence effectively killed the Chamberlain measure, his "no compromise" attitude in the same letter regarding the Overman empowering bill has not materially helped that measure. The Overman bill will pass, but only as a compromise measure. A poll taken by Senator Hoke Smith of Georgia today showed 47 Senators favoring the amendment, 42 against it, with seven doubtful. Three doubtful ones later told Smith they favored amendments.

## Output of Pleasure Cars to Be Reduced

WASHINGTON, April 23.—"Sharp curtailment" of pleasure car production is expected shortly as the result of a conference today between all leaders of the automobile industry and Chairman Baruch of the war industries board. Automobile men have at the request of the government, presented full details and sworn statements of the production of 1917 pleasure cars, together with estimates of this year's output.

**PLEASE NOT GUILTY.**  
Despite the fact that he was identified by Mrs. Bell Grill as the street car conductor who supplied her last on a street car April 19, Frank E. Young today emphatically denied the charge of battery before Police Judge Samuels and pleaded not guilty. His trial was set for April 26. Young was arrested yesterday while on duty on a San Pablo avenue car.

**EVADES MILK LAW.**  
An ingenious method of beating the city license for milk dealers failed for N. J. Lynch, independent dealer, who was found guilty today in the police court. He will be sentenced tomorrow. Lynch sought to evade the law by issuing stock to his customers and paying dividends in milk.

## U. S. Troops Foil Germans New Raid in Verdun Line

WITH THE AMERICAN ARMY IN LORRAINE, April 23.—Fifty Germans raided the American sector north of St. Mihiel (between St. Mihiel and Verdun) today.

The American artillery repulsed the Boches as they reached the American barbed wire entanglements. The German wounded were carried off, but two dead were left on the wires.

The Americans made a counter-raid on the German trenches, bringing back two prisoners. The other American sectors were quiet.

By HENRY WOOD,  
United Press Staff Correspondent.

WITH THE FRENCH ARMIES IN THE FIELD, April 23.—Storm troops who supported the German regiment attacking American forces Sunday morning were specially trained and appeared for this operation.

An official French note says French troops, during a raid in Lorraine the night of April 16, captured prisoners who said the Germans were preparing for an important attack.

At dawn Sunday, after a most intense bombardment, they attacked the Americans on a mile front. Additional details show the Americans finally attacked with the French and chased the Germans out of Remelles Wood (half a mile northeast of Seicheprey), where they had established themselves by an attack on the French.

The Franco-American troops recrossed all the ground lost, captured a number of prisoners and left the barbed wire entanglements filled with German dead.

The ground where the battle was

## PRESS PRAISED BY FOOD OFFICER

Nothing has been learned today of the fate of E. H. Davies, supposed to have been drowned in a vain attempt to save Edith Lindstrom from death in the bay of Alameda Sunday afternoon. The body of the young woman was recovered late yesterday. After it had been accepted as a fact that Davies was a second victim of the tragedy there came a report that members of a yacht club had picked the man out of the water and had taken him to wading distance, where he said he could take care of himself and started to wade ashore. The clothing that Davies left in the bath house when he donned a bathing suit was never called for and the man who lost his mind through the shock, occasioned by his experience is wondering clad only in a bathing suit.

Those who have been conducting the search believe that Davies was overcome after he left the yacht and is drowned.

They point out that it is scarcely possible that he could wander thirty odd hours in a bathing suit and not be observed by some one who has read of the drowning.

The body of Miss Lindstrom was recovered by Beverly Williams and Andrew Johnson, two members of the Bay Shore Club. It was floating close inshore. The body was recovered last night before the body was recovered. It was clad in a bathing suit, Miss Lindstrom and Marian Davies and E. H. Davies, the other members of the trio all being in bathing suits when the tragedy happened.

Miss Lindstrom and Marian Davies were close friends. She stayed with Marian Davies at the Davies home in San Francisco Saturday night and Davies and the two girls came to Alameda early Sunday. Mrs. Davies is in Los Angeles on a visit. Davies is Marian Davies' stepmother, but the girl goes by the name of her step-parent.

## U. S. Troops Quartered in Champs Elysees

PARIS, April 23.—The Elysee Palace and the Hotel Champs Elysees have been taken over by the American Expeditionary force. The buildings will be used as offices and quarters for officers of the American army.

## OAKLAND TRIBUNE

## RAZED CITIES AGAIN SHAKEN BY TEMBLORS

BY ASSOCIATED PRESS.

TEASED WIRE TO TRIBUNE.

SAN JACINTO, April 23.—Three

more earthquake shocks during the

night and early today made San Ja-

cinto and Hemet "shiver," but added

nothing to the destruction of the Sun-

day afternoon tremors which half

wrecked the business district here and

severely damaged Hemet.

Even the tottering walls of half-

collapsed buildings seemed to have

gained a sense of balance during the

successful earthrockings and twistings

of Sunday and Monday and retained

their balance.

Inhabitants of San Jacinto and He-

met, however, although not fearful of

other damaging shocks, many

now have more confidence in the sta-

bility of the sky than in their roofs,

and it was estimated a third of the

people slept outdoors, as they did Sun-

day night.

The three new shocks occurred at

midnight; about 2 a. m. and at 7:15 a. m. The last, which was reckoned

as the twelfth of the series, seemed

the most severe of the three. Wind-

walls were shaken and dishes rattled.

As one person said: "Everything that

could be shaken loose had been

shaken down" by the first three de-

vastating shocks of Sunday afternoon.

PUBLIC UTILITIES ARE AGAIN WORKING

Gas, electricity and water services

were resumed late yesterday and con-

ditions are gradually approaching

normal again here and at Hemet.

Resumption of gas service was

followed by electric power.

Wrecking gangs began their second

day's work clearing the streets and

starting on the tangled wrecks of the

business districts of the two towns

to make way for the second rebuilding

of the towns, half obliterated by

similarly violent earthquake on

Christmas day, 1899.

"Work or get out of town" is the

order issued and enforced by Charles

Adams, city marshal who took charge

of things in general as soon as he

arose from the pavement of Main

street Sunday afternoon, where the

earthquake threw him down. Every

man not necessarily occupied other-

wise has been put to work either in

the salvage or wrecking crews which

got into their stride today. The two

gangs started on "layers" of the

wrecked buildings. After the wrecking

crew unrooved part of a store's

stock the salvagers picked out

what could be reached and grouped

it in the street before that location.

Then the wrecking crew took off an-

other layer of bricks, mortar, kind-

ing and so forth.

Several minor attempts at looting

were reported during the night, but

no arrests were made.

WRECKED DISTRICT ROPE AND PATROLED.

Last night the wrecked district,

mostly on Main street, was roped off

and patrolled by guards. No one was

admitted to the arena except upon

known business.

On the ruins of a lodge building,

about where the altar was located,

the American flag, used in the ritual,

had been raised beside a pile of re-

galing.

The postoffice building, which was

vacated and considered to be safe

not to endanger people, survived

dynamite last night when wrecker

tried to blow it down. Since

earthquake and explosives failed a

team of mules was put into action

today and pulled out a corner so the

tower fell, carrying much of the

building with it.

Thorough work is being done by

the co-operative wreckers. Every

brick or bit of usable material is

piled neatly, ready for use in the

reconstruction work.

Each wrecked building is finished

and the material piled away before

work is begun on the next location.

Further evidence of the earth-

quake's violence was found today in

# ALL COMFORTS OF RANCH AT REMOUNT CAMP

CAMP LEWIS, TACOMA, Wash., April 23.—One of the most attractive assembly halls for the men of Camp Lewis is the Auxiliary Remount Detach Club house, designed by Andrew Dopes, formerly architectural engineer for the Belgian army, and built with government funds and money furnished by Captain J. W. Jackson, commander of the depot, who takes an honest pride in this home for the boys.

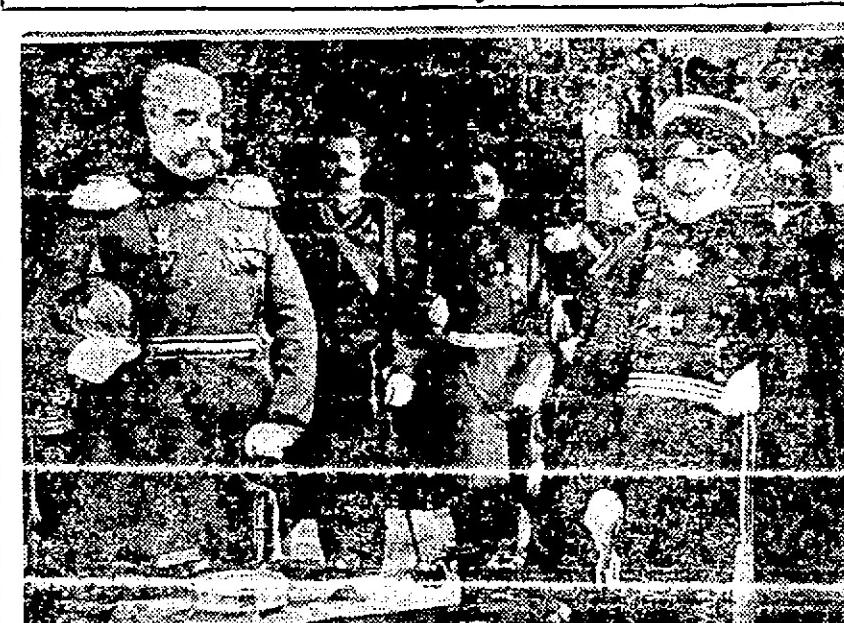

It is three miles from the remount depot to the Liberty Theater and going from the depot to the theater for a night's entertainment is almost out of the question. So Captain Jackson has had installed in the club house a motion picture machine and a stage where the pictures are shown and where amateur theatricals are staged.

The furniture for the building has been donated by friends of the boys, nearly all of whom are volunteers, and it is fitted out in comfortable homes like as possible. There is a large brick fireplace, larger than the one in the Hostess House, and a pair of tongs, welded out of one piece of iron, by one of the men, speaks words for the efficiency of the blacksmith school of the depot.

All over the walls are western pictures. Most of them are reprints of famous paintings by western artists and each has a story to tell. One of the favorite diversions for the new man in the depot is to examine the pictures and pick out the flaws the artist has made through his ignorance of ranch life. The picture prized most highly is one called "Smoking Men Out," painted by Charles Russell, the famous painter. It is the oil painting which won high honors in American exhibits and a price of \$100 was put on it. Mr. Russell decided the best use to be made of it was to give it to his cowboy friends for their club house at Camp Lewis and it occupies the honor position over the fireplace.

There is a rest room for women who

## "Beast of Berlin" at Kinema True Portrayal of Kaiser

Scene from "The Kaiser, the Beast of Berlin," at Kinema.

### Picture Exposes Duplicity, Brutality, Vanity and Arrogance of Hun Emperor

When the most staid of business men will get up and cheer and yell early in the morning at a moving picture there must be something to stimulate them. There was—and the men were selected from the most conservative of Oakland's come to the remount to visit their friends and a library has been built at one side of the stage where 1000 volumes are on shelves for the use of the soldiers of this thoroughly western unit. From 10 to two hundred men gather here nightly for reading, music, games or writing letters. A balcony in the rear houses the motion picture projector and furnishes a writing room. The roof is several feet higher than the average building and the acoustics are perfect.

### Children Cry for Fletcher's

# CASTORIA

The Kind You Have Always Bought has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision for over 30 years. Allow no one to deceive you in this. ## SEND SAN QUENTIN FLOWERS TO BAND

Appreciation of the visit paid by the Oakland Park Band to San Quentin prison was expressed by the men of the institution in the form of a great box of flowers, grown within prison walls, and sent to be made into small bouquets for the members of the band at the first concert of the 1918 season in Oakland. The flowers were received by Henry Vogt, secretary of the Oakland park commission and manager of the band, and made into bouquets by Mrs. Vogt.

A message from the prisoners was sent through Vogt to the members of the band in a personal letter from Robert E. Bell, in which the writer, who has composed several songs, sent his best wishes for the success of the season and realization of Vogt's wish to have a new bandstand in Lakeside Park. The letter transmitted by Bell for his fellow prisoners, and the reply drafted by the members of the municipal band, follow:

DEAR FRIENDS:  
"Professor Paul Steinendorf, Mr. Henry F. Vogt, Mr. Dexter M. Wright and the members of the Oakland Municipal Bands.  
"Gentlemen: On this the day of your opening concert for the season of 1918, I desire, for the inmates of this institution, to extend to you and your musical organization, our best and most sincere wishes for a successful and pleasant season."

"One of the greatest pleasures of life is the pleasure of creating happiness for others, and in the beauty of music that form of expression which touches the hopes of one's heart still forces a response, that creates real happiness beyond the human and heart-breaking melodies. "Some of our vices, however, are forgotten in the bursts of melody and always there lingers a sensation of complete happiness, while sometimes we are unable to interpret, still there remains a feeling of the fullness of life."

"On the occasion of the visit of your organization to this institution, there was instilled a feeling that still lingers, that somewhere life is still the beautiful existence we have always pictured it to be, that somewhere, there is a responsive touch that will turn us to that which leads to better citizenship and to those things which are the right of every man, won by his efforts commands the respect of his fellows."

"Again, expressing the sincere gratitude of every one here, and conveying their wishes for your success, I remain, "Very sincerely,"

ROBERT E. BELL."

THANKS FROM BAND,  
"Oakland, Cal., April 21, 1918."  
"To the officers and inmates of California State Prison, San Quentin, Cal."

"We, the members of the Oakland Municipal Band, hereby extend to you our sincere appreciation and hearty thanks for the splendid goods, wishes and beauties which you have given us on the occasion of the opening of our concert season. Words are a poor medium to express our feelings when we were so agreeably surprised as today; and we again assure you that we stand ready ever to assist Warren Johnston in carrying out the high ideals that he is so most humanely working for, and we will always maintain a feeling of friendship and brotherhood for you boys. With the very best of wishes and hoping we will meet you all again sometime, somewhere, we are, "The Oakland Municipal Band, Paul Steinendorf, director; Henry F. Vogt, manager, and Dexter M. Wright, associate director."

CHILEAN CABINET

Is Reorganized  
SANTIAGO, Chile, April 23.—The Chilean cabinet has been reorganized as follows:

Minister of the interior, Arturo Alessandri; minister of foreign affairs, Daniel Feltu; minister of justice, Pedro Aguirre Cerda; minister of finance, Luis Clare Solar; minister of war, Jorge Buldúquez Blanco; minister of industries, Ramon Brienes Lugo.

While we were waiting to be initiated into the mysteries and the many formalities applicants must pass through before final acceptance for service, the sharp clear voice of a passing newsboy rang out on the still clear air, announcing fresh recruits being committed on the helpless women and children of France and Belgium.

We hailed the newsboy, from whom we obtained a copy of the Oakland TRIBUNE, when we fell on an eager perusal of the paper, which elicited a discussion of no mean proportions.

With the luncheon hour over, the recruiting opened to resume the business of the afternoon, when the prospective candidates were quickly ushered into the presence of a gentleman who made a deep impression on us, on account of his stern face borne of years of military discipline, his soldierly bearing and his iron gray hair which lent a pleasing contrast to his whole personality.

In a way characteristic of men who have years of military experience, he asked the candidates seeking enlistment many questions in a short, quick way, which resulted in our showing a considerable degree of timidity which he was quick to note.

His fatherly and kindly manner soon won us over, and we experienced a sense of relief, when he announced he was ready to give the candidates the preliminary examination which he did.

The preliminary examination was held, and passed through successfully by the waiting candidates, who were heartily congratulated by the officer in charge.

From here we visited a theater, where the play, "The Unbeliever," a production of the United States Marine Corps, was being produced and you may be sure we enjoyed the play to its fullest extent.

For it served to arouse our fighting blood to its highest pitch and made us the more determined to do our full duty, and make us more steadfast in our purposes to aid our comrades in arms to punish the traitors of those suffering women and children of France and Belgium.

With lots of love, I am dear uncle, your affectionate nephew,

YOUNG AMERICA.

### Oakland Saloonmen Pay License Promptly

That the retail liquor business has been prospering during the last three months was evidenced today when for the first time in nearly two years it was reported by Chief of Police Neiderman that every quarterly license of \$100 has been paid—with the exception of one saloon place which is retiring from business. The council, to which the report was made, has on previous quarters been obliged to grant extensions of time from ten days to two weeks in which delinquent licensees might be paid.

M. A. Fitzpatrick, who for a number of years has conducted a saloon at 3923 Grove street, corner of Fortleth, has quit business, allowing his license to expire. Many efforts made by different factions to close the place in the past failed.

## RICHMOND TO SEE

## FILM OF MAKING OF GREAT PAPER

"How a great newspaper is made," the master educational film of the world, is to be seen in Richmond today and tonight at the Richmond T. & D. Theatre.

This remarkable industrial film, the creation of O. J. L. Byers, noted picture producer, is the first perfect detailed depiction of the processes of printing a newspaper. The superlative facilities of the new TRIBUNE building made this possible, and every detail of the mammoth plant is shown.

The film shows the editing of the paper, then takes the spectator to the composing room, where "close up" views show the linotype in action and the various processes of making the plates. The plates are then shown on the mammoth Hoe Sextuple press, and the paper is gotten out for the daily issue. The photo-engravers are shown making "cuts" for the newspaper, and every detail of the manufacture, every mechanical operation, is depicted.

The film also shows the dedication exercises of the TRIBUNE.

The film is one of the most remarkable industrial films ever taken, in that it is a complete visual lecture on a subject never before attempted. Many Richmond people, incidentally, are seeing themselves in the crowds at the dedication ceremony, when many from the Contra Costa city were present.

Oakland and Berkeley for the past thirty-five years. She was the mother of Mrs. Charles F. Woods, wife of the city librarian of San Jose, and had a daughter, Mrs. C. O. Edwards, residing in this city. The remains will be brought to this city for cremation following the funeral.

## RAILWAY WAGE DECISION SOON

WASHINGTON, April 23.—To allay railway employees' impatience over delay in the report of the railroad wage commission, Director General McAdoo said the commission would report to him as soon as he returns from his speaking tour in two weeks and that he would make an early decision.

Any increases allowed will be effective as of January 1. Mr. McAdoo explained, "and meanwhile no employee's interest is being hurt or prejudiced because whatever increase may be granted will have accumulated in the form of savings."

The director general added an appeal to railroad workers to buy Liberty Bonds.

### Says He Was a Fool to "Fall for Little Blonde"

SAN FRANCISCO, April 23.—"I was a fool for falling so hard for that little blonde," said Miles A. Bennett, confessed Yokohama Speeie Bank robber, arrested Sunday night after he had wounded Detective Harry Lubbock. She may mean all right, but she had no call to turn me up to the police. When I saw her brought that Dick with her I saw red and took a shot at him."

Bennett declared that he had planned the robbery to get money enough to marry Bertha Wolf, 2763 Bush street, to whom he was engaged, but that it is now all off with the little blonde." Bennett is awaiting arraignment this week on the charge of robbery.

See "THE KAISER—THE BEAST OF BERLIN," at the Kinema Theater this week. See what can happen to your home and family. Then think what you would pay to prevent it and put it in Liberty Bonds

## No Humbug! Lift Off Corns

Doesn't hurt a bit to lift a corn or callus off with fingers

For a few cents you can get a small bottle of magic drug from me recently discovered by a kind man.

Just ask at any drug store for a small bottle of magic drug from me recently discovered by a kind man.

Apply a few drops upon a tender growing corn and instantly it disappears and shows no sign of those corns to those that you lift from your feet and all the fingers.

Just think! Not one bit of pain before applying my drug and afterwards it does not irritate the sounding skin.

Corns, soft corns, corns between the toes, a hardened callus, a corn of feet just seem shriveled up and fall off without hurting a particle. It is almost magical.

Ladies! keep a tiny bottle on your dresser and corn or callus aches twice as moment.

### NO REPORTS.

The entire situation, war chiefs say, is in the hands of the commanding general of that district, and there have been no reports received here which indicated any danger of an invasion. The situation has been more or less quiet, but there have been some minor incidents at various points and travel anticipated.

WASHINGTON, April 23.—Concentration of Mexican federal forces on the border, but especially in the Ojinaga-Juarez section, is believed by officials to be the result of agitation by German agents in Mexico. However, the war department advises do not indicate that immediate trouble may be feared.

### WARTIME RECIPE FOR GRAY HAIR

How to Make An Inexpensive mixture That Will Darken Streaked or Faded Hair.

Gray, streaked or faded hair can be immediately made black, brown or light brown, whatever shade you desire, by the use of the following remedy that you can make at home:

Merge get a small box of Orlex powder at any drug store. It costs

about \$1.00 and no extract is required.

Dissolve it in one ounce of water and comb it through the hair. Full directions for use come in each box.

You need not hesitate to use Orlex as a \$100.00 gold bond comes in each box guaranteeing the user that Orlex powder does not contain silver leaf, zinc, sulphur, mercury, uniline coal-tar products or their derivatives.

It does not rub off, is not sticky or gummy and leaves the hair fluffy. It will take a gray-haired person look twenty years younger.

### REMOUNT DEPOT LIKE HOME CORRAL

There are miles and miles of board fences, lanes and streets—all muddy streets where the heavy Washington rain has been mixed with the prairie soil by thousands of hoofs until it is a thick, sticky, black mess. There are warehouses, a silo and stockyards where horses are loaded on trains or unloaded.

There are great quantities of hay stored in the warehouses or in sheds and more is constantly coming in for it takes at times 125 tons of hay a day to feed the horses and mules here. At present about 1500 are out on a field back of the remount station feeding on green forage.

INCINERATION IN PLAY.

The combined experience of these western ranchers now in Uncle Sam's service has been used to devise numerous improvements in the handling of horses which have resulted in greatly facilitating the work.

For branding horses or examining them for disease, a crowding pen is used, consisting of a narrow alley, one end of which opens funnel shape and the other having a swinging gate for a wall arranged so that the horses can be held tightly while they are being branded or examined. The horse is driven into the funnel shaped end and as soon as he reaches the opposite end the gate is struck sharply squeezing the animal against the opposite wall. It means safety both for the animal and the men. The crowding pen has been used

in the stockyards and which speaks well for the invention.

In the stockyards, the alleys and gates are the same width—14 feet—so that when the horses are released from one pen, the alleys can be converted into another pen and there is less work in driving the animals wherever desired.

THE CROWDING PEN.

The little old lady's eyes brightened. She was pleased that somebody should have detected her romance.

"He became my husband, a long time afterward," she said quietly. Then, after a short pause:

"We had two sons. They have helped me know what fighting the German is, too."

We all knew the rest; the pretty chafleur had gone out to stay in homes that were expecting them. Some came very late, and told stories of experiences too horrible for me to repeat; stories of the sort that have become familiar again because of their repetition in the present war.

"I wonder that people have been surprised at the cruelty, the excesses, that Belgium and France have suffered in this war," she exclaimed. "They should have known it is the German way. It only your American way, could understand, could know that even your wide ocean will not protect you hereafter, if they defeat us here!"

So we were able to get her story. She had been a school girl in a northern province when the invasion of 1870 took place. The Hun had swept over the little town where her school was.

"I wonder that people have been surprised at the cruelty, the excesses, that Belgium and France have suffered in this war," she exclaimed. "They should have known it is the German way. It only your American way, could understand, could know that even your wide ocean will not protect you hereafter, if they defeat us here!"

# TESLA MINES ON FIRE; MAY BE TOTAL LOSS

Fire has broken out in the Festa coal mines, in the lower end of Alameda county, and despite the efforts of a United States fire marshal and a large force of men, threatens to entirely consume one of the most valuable, and probably the most famous, coal deposit in the state. The fire is believed to have been started through spite work.

The Tesla mines have produced an immense amount of coal in days gone past and are still believed to hide millions of tons of valuable fuel deposits. Of recent years the mines have been involved in complicated litigation which has caused a cessation in the development operations. Recently, the properties were acquired by the San Francisco Wrecking company through a court order.

The buildings at the mouth of the shaft are thought to have been the target for an incendiary fire, started some time last night. Before watchmen on the premises could prevent the flames from spreading, the outside equipment was consumed and burning timbers, falling down the main shaft, a distance of 600 feet, set fire to the coal veins.

The state fire warden was notified of the situation and arrived with a force of fire fighters. He is making a frantic effort to save the mines from the underground fire. Representatives of the controlling company are also on the ground and every effort is being used to hold the fire in check.

The Tesla mines, at one time, were numbered among the properties of J. D. Smith Brown of the California Trust and Savings Bank. They passed into other hands when his institution failed. The immense quantities of coal handled from the mines in earlier days warranted the construction of a special railroad to Stockton which gradually fell into disuse as the mines became involved in court litigation.

## UNBELIEVER' STIRS LIKE CALL TO ARMS

"Tell it to the marines" is not a joke at all—that is, it was no joke originally, for a king first said it, and as a compliment to the first marines. Pepys's diary is authority for this. And today the marines are the men who fight first, and are fired first. Oakland will see Uncle Sam's Marine Corps in battle action next Wednesday and three days thereafter at the American, when the master film produced by Edison, in cooperation with the Marine Corps, and one of the greatest patriotic films ever made, is shown here.

After that "Tell it to the Marines" will be no joke in Oakland in these modern times.

The saying "Tell it to the marines" is said to have originated with King Charles II of England. "It so befell," the story goes, "that his light-hearted majesty, with an exceedingly bored expression on his swarthy face, was strolling in the shade with the ingenious Mr. Pepys, secretary to the admiralty."

"I had speech yesterday at Deptford," said Mr. Pepys, "with the captain of the Defiance, who hath but lately returned from the Indies, and who told me the two most wonderful things I think I did hear in my life. And the stories told were of this: WAS QUANT CONCEIT."

"Fish flying in the air!" exclaimed his modesty. "Ha, ha, a quaint conceit which 'twere too good to spoil wi' keeping. Why, sir," he turned and beckoned to the colonel, Sir William Killigrew, of the newly-raised maritime regiment on foot, who was following, in close conversation with the Duke of York, "we would discuss with you on a matter touching your element. What say you, colonel, to a man who swears he hath seen fishes fly in the air?"

"We should say, sir," returned the sea soldier simply, "that the man hath sailed in southern seas." For with your majesty's business carried on, with us, of late I did frequently observe more flying fish in one hour than the hairs of my head is number."

"Old Rowley glanced narrowly at the colonel's frank, weather-beaten face. Then, with a laugh, he turned to the secretary and said: 'Mr. Pepys, from the very nature of their calling, no class of our subjects can be so wide a knowledge of seas and lands as the officers and men of our loyal maritime regiment. Henceforth whenever we cast doubt upon a tale that jacket likelihood we will tell it to the marines—if they believe it, it is safe to say it is true.'

MARINES IN FILM ACTION.

Thomas A. Edison's latest film production, "The Unbeliever," version of MARY STEPHENS ANDREW'S popular novel, "The Three Things," is given at the American beginning Wednesday, with the co-operation of the United States Marine Corps. The trench and battle scenes were filmed at the corps' cantonment, Quantico, Va.

The picture tells the story of a young American aristocrat, the part portrayed by Phillip Landen, who lost his class and race prejudices and found his faith in God in the experiences of war. Exciting scenes "at the front" are shown, and the love element of the play develops when the American meets a Belgian girl, whom he rescues from the menace of Germans and ends to his Long Island home.

The patriotic note in the play is clearly sounded without the introduction of provincialism. Several scenes depict Prussian brutality in relentlessly cruel forms, but rebellion against it by Germans themselves prevents sweeping condemnation of the Teutonic people. The hero loses his race prejudice when he finds himself in a hospital bed between two Germans who are as human as he.

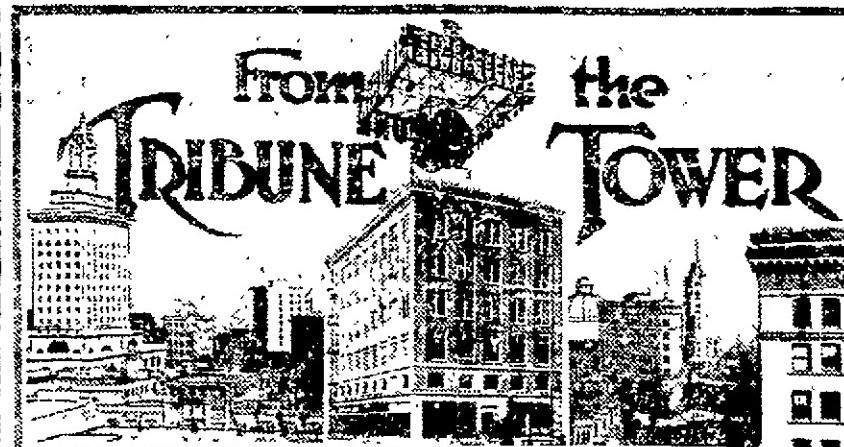

### OFFICERS IN CAST.

Many scenes of the marines in action were effectively worked into the story to give the effect of real war. Several United States Marine Corps officers take part actually in various of the spectacular war scenes.

Major Ross E. Bowell appears in charge of the artillery operations. Major Thomas Holcomb commands the Marine Infantry and orders them "over the top." Captain Thomas Stretton is seen in command of a dugout and in the dugout calls for six volunteers to go out on sap-sapping duty and to start on German sniping activities. Lieutenant James F. Cooke plays the part of Lieutenant O'Shaughnessy, who die-in-as-on-the battlefield in the arms of a Jewish rabbi, who helps him find his crucifix as he breathes his last.

### OWNS TO THEFT.

Mrs. Rosalie May, accused of stealing a wrist from Kahn Brothers' store, appeared before Police Judge Samuels today and pleaded guilty. She stated that her husband's income is not sufficient to purchase clothes she desires. The case was continued until tomorrow for sentence.

## CROWDS SING AT BAND CONCERT

The first band concert of the season in Lakeside park by the Oakland Municipal Band was marked by community singing for the first time in the history of the concerts. The occasion was also signalized by the delivery of a Liberty Bond address to more than 6000 people by Phil Carey, who was introduced by Mayor John L. Davie.

Members of the band wore button-hole bouquets made of flowers sent to the band by inmates of San Quentin prison, a division of the corporation of the men there for the concert given by the Oakland Park Band at the penitentiary last year.

Community singing of "The Star Spangled Banner," "Columbia, the Gem of the Ocean," "Over There" and "There's a Long, Long Trail" was led by Alexander Stewart, who is one of the leaders in the "Community Week of Sons," begun today in all theaters and public gatherings in Oakland, and by Miss Anna Heymans, soprano soloist with the Municipal Band.

Paul Steinhardt, director of the band, was given an ovation when he appeared. The program was well received, and the grand fantasia from "Carmen" and Grieg's "Peer Gynt" suite being especially applauded.

The canny Scot who had been watching his sample, hitched his sporrans, as the kiltsoining brush that hangs in front is called, and gave him consolation.

"Weel, weel, what if ye did," he said. "Twill put new life into ye!"

POINTS TO NINE WHEN  
IT'S 12 O'CLOCK, BUT—  
Oh, no!

The clock on the TRIBUNE tower is not correct.

It said 9 o'clock today when it should have said twelve—but then, it takes a little while to set a clock—and before that you must put the clock's machinery inside!

The giant hands for the great TRIBUNE clock arrived this week and were placed on the mammoth dial but the machinery was not in yet, as it came with the hands.

In the meantime machinists with month-long notices are putting into place the large clock works in the state and in a few days the whole east bay region will be setting its watch by The TRIBUNE clock. Once it gets going it can't miss the time—unless the government observatory misses—for the two are connected by wire.

### FINE! MEAT WITH HIS FREE MEAL! HELPS SOME!

He was a Scotchman—a real, bona fide, two-fisted canny Scot. He wore a piece of French pastry

## BIG PRESS BRINGS NEWS TO MINUTE

Work is progressing on the big sextuple Hoe press being erected next to the plant in operation in the new TRIBUNE building, but the work of assembling the parts will take some time as it is necessary to adjust new equipment and devices to the framework, and to fit the new devices so perfectly that there will be no friction or variation by the smallest fraction of an inch from running true.

Among the modern equipment to be added to the press will be new "formers" and a "late news" device, or fudge system. The press was limited, and the editions were limited to four sections, which could be run off at one time. The new press will be able to run off three times the capacity.

Extra sections will make possible a better display of the news and the giving of greater prominence and distinction to the departments of women's section and society, automobile sections, real estate, churches, theaters and other divisions of the news and special TRIBUNE features.

The late news device, with which both mammoth presses will be equipped, makes possible the placing in the front page of the paper, or on the front page of any section, last minute news, war bulletins or other bulletins of great importance that may come in after the paper has actually gone to press. This will make it possible for the readers of The TRIBUNE one of the finest and most complete printing plants in the West, and will provide for taking care of the rapid increase in circulation and of the enlargement and display of features in handling the news. The presses from the late date glass windows on the Franklin street side of the building are daily watched by scores of persons interested in the operation of the intricate machinery.

These two presses will give The TRIBUNE one of the finest and most complete printing plants in the West, and will provide for taking care of the rapid increase in circulation and of the enlargement and display of features in handling the news. The presses from the late date glass windows on the Franklin street side of the building are daily watched by scores of persons interested in the operation of the intricate machinery.

With the two mammoth presses,

## Thanks Tribune For Its Aid of Four-Minute Men

EDITOR OAKLAND  
TRIBUNE,  
Dear Friend of Four-Minute  
Men.

At the outset of your campaign of publicity for our branch of the GREAT CAUSE, we desire to thank you for your top head placement of news concerning us in yesterday's TRIBUNE. I have forwarded copies to State Chairman Cowan and also Prof. Clark, who is on his way to report to Washington. Very cordially,

W. NAT FRIEND.

equipped with the most modern apparatus developed by R. Hoe & Co. of New York and London, the product of the greatest inventive minds in making presses in the world. The TRIBUNE will be in a position to meet the demands of its constantly increasing circulation for several years to come. The new lightning sextuple press has a capacity of 72,000 twelve-page papers an hour, or 36,000 twenty-four-page papers. The press now being assembled will have a capacity of more than 30,000 twenty-four-page papers.

These two presses will give The TRIBUNE one of the finest and most complete printing plants in the West, and will provide for taking care of the rapid increase in circulation and of the enlargement and display of features in handling the news. The presses from the late date glass windows on the Franklin street side of the building are daily watched by scores of persons interested in the operation of the intricate machinery.

With the two mammoth presses,

## Special Notice

### From Our Drug Department to the Men of Oakland

Did you ever figure out how much it costs you by not shaving yourself? We want to tell you how we can save you \$38 a year. Most all men get shaved three times a week.

Three Shaves per week for—  
52 weeks for 1 year costs you.....\$31.20  
52 weeks for neck shave costs you.....2.60  
52 weeks tips to barbers costs you.....5.20  
\$39.00

—So by taking a few minutes three times a week you save at least \$38. Our Drug Department has been noted for the good values and cut prices.

## SAVINGS AND BONDS.

A bulletin issued by a San Francisco firm of bond brokers shows at a glance the effect of war loans on savings deposits. It will surprise many persons to learn that under the influence of government bond buying the savings deposits increase. The Blyth-Witter analysis recounts the following facts:

Great Britain and Canada have entered the second half of their fourth year of the war. During the whole period their respective issues of war debt totaled \$24,500,000,000 and \$925,000,000. At the outset their respective savings deposits aggregated \$1,120,000,000 and \$720,000,000, while at the present time they are reported \$1,266,000,000 and \$983,000,000. Respective increases 13 per cent and 36 per cent. On the per capita basis the debt of the United Kingdom of Great Britain before the war was \$76.20, which compares with \$615 at the present time; while savings deposits per capita are practically unchanged from \$80 before the war to \$79 at the present time. In Canada the per capita debt before the war was \$69, compared with \$166 at the present time, an increase of 140 per cent; while savings deposits per capita have increased from \$16.60 to \$16.60, a growth of 23.8 per cent.

Canada, in general respects, gives the best basis on which to make predictions of the future trend of savings bank deposits in the United States as a result of recurring war loans. In a period of sixteen months war loans equaling 62 per cent of the savings bank deposits at the beginning of that period were subscribed, and at the end of the period savings deposits had increased 36 per cent. While the interest yield on Canadian loans exceeds 5 per cent, Canadian savings banks allow an average of 3 per cent, and, in spite of this lesser rate, have constantly gained in deposits. If such an interest disparity fails to check the growth of savings bank deposits in Canada, it appears logical to assume that in the United States, where Liberty bonds yield from 3½ to 4½ per cent, with savings banks paying from 3 to 4 per cent, the growth of savings deposits will continue proportionately greater than in Canada.

These figures indicate the value of thrift as a factor in our economic life. Absorption of the war bonds does not call, in the net result, for sacrifice and denial of really needful things for our daily subsistence. Reasonable economies, mainly the avoidance of waste, enable the government to secure the necessary financial assistance from the people and the people have left a surplus which enables them to increase their normal savings deposits. Such shortage of staple food and clothing supplies as may be experienced in some of the entente belligerent countries is not due to scarcity of money or stringency of financial conditions, but to the inadequacy of production and distribution machinery to serve the normal needs while meeting the demands for war material.

In the case of the Liberty bonds, the money does not leave the country. It executes a circle—from purchaser to bank, from bank to government account, from government to the operators of industry, from operator to worker, from worker to the retailer, landlord, public utility, amusement houses, and the balance back to the savings bank.

It is not a hardship for those with capital or savings to buy Liberty bonds, merely an adjustment to the circular movement of war finances. No one should shirk cooperation with the government at 4½ per cent interest.

## A FAMILIAR TYPE.

Emperor Charles of Austria-Hungary represents a type not unfamiliar to American citizens. When the French government exposed the fact that he had written a letter "feeling" for peace overtures and employing the phrase that France's claim to Alsace-Lorraine was just, he replied by passing the blame to his aunt. Then, a few days later, evidently not thinking much of his first attempt, he charged the French priest who acted as confessor to his wife with inserting some extra phrases in the French translation sent to Prince Sixtus of Bourbon.

In this country the prototype of Emperor Charles

is that individual who thinks it is a perfectly moral and conventional act to lie to the newspapers or to lyingly contradict what the newspapers publish. When a Wisconsin senator's seditious speech was published he charged he had been misquoted; when Government Press Agent George Creel declared he would be proud to his dying day that America was unprepared for war he accused the newspapers of crediting him with a statement he did not make. The list could be extended ad infinitum until we get down to the ignorantly confident person who says "you can't believe anything you see in the newspapers."

But the truth of the matter is the mistakes the newspapers make is less than 1 per cent in volume and weight of the lying denials of the printed fact. The main consideration of the newspaper in conducting its business is to achieve the maximum of truthfulness, record realities and kill falsehood wherever it raises its head. The aim of men of the Emperor Charles type is to suppress as much of the truth as possible and deny that portion which becomes public knowledge. The lying of the world is done by individuals and not by institutions.

## ENCOURAGING CROP FORECAST.

Much encouragement is to be gained from a perusal of the government crop report of grain conditions compiled to include March 31st and just issued. It shows that a yield of 646,000,000 bushels of wheat and rye combined was indicated on the first of this month. If this is realized it will mean an increase of 168,000,000 over the yield of the two crops in 1917.

The condition named for winter wheat is 15½ per cent above that of a year ago, though the estimated yield is slightly below what had been looked for. Conditions in the grain belt since the data for the report were compiled have improved decidedly. Abundant and much-needed rainfall has prevailed over the greater part of the country—notably in the Southwest. The forecast makes allowance for an average abandonment of acreage between seed time and harvest.

Present indications are that the loss of acreage through winter killing will this year turn out to have been far below the average. There will be loss in acreage in Western Kansas, where the present crop prospects are for about half a yield; also a little in Oklahoma, the western part of the Texas Panhandle and in Texas proper. All that is more than allowed for, however, in the present estimates. It may be that the loss of acreage will run from 1,000,000 to 1,500,000 acres. But the acreage planted last year was much the largest on record, and there was no winter killing last season from the usual causes; what losses have been sustained are entirely from drought. Last season there was a loss of 12,437,000 acres, or 31 per cent of the acreage seeded, which was 40,090,000 acres. The smallest loss in recent years was 923,000 acres, in 1903. The five-year average loss is 4,078,000.

This fair prospect will not be realized, however, until after harvest time. In the interim the closest saving in wheat flour is necessary. If the rules of the food administration are not observed voluntarily observation must be forced. The three months cooperation in flour saving ought to be cheerfully accepted as a part of urgent national effort.

## THE SILVER BILL.

The bill providing for the sale of silver bullion in the federal treasury to offset Asiatic trade balances is a bit perplexing in the form it now exists. It is a monumental legislature structure for dealing with a problem that does not seem at first thought to be particularly intricate. But financial measures nearly always are unintelligible to the ordinary mind, and we can only hope that the bill will emerge from Congress in a little more lucid form than at present.

Briefly the bill appears to provide that of the 490,000,000 silver dollars held against outstanding silver certificates, as much as 250,000,000 may be released through retirement of such certificates. Melted up, the resultant bullion may be sold at prices fixed by the Treasury. But the Director of the Mint must buy in the market at a fixed price of \$1 per ounce (to which the bullion dealers have agreed) as much new silver as had been melted up from the silver dollars. That newly-purchased silver may be coined, or it may be sold for use, by ourselves, or our Allies, in settling foreign trade balances. But the retirement of silver certificates may be offset by issue of notes by Federal Reserve Banks on collateral of renewable short-term government obligations. When, however, silver dollars are coined out of the mint's purchases of silver, an equivalent amount of the Reserve Bank notes shall be canceled.

But after the bill is finally enacted it will be subject to elaborate interpretations and rulings by the Secretary of the Treasury and the Federal Reserve Board. The most solid feature of it at present is the promise of its advocates that it will stimulate silver production in the West by increasing the price of silver at the mines.

It did not require long for Representative Julius Kahn of California to answer the critics from Southern States who thoughtlessly alleged that this State had not done its share in providing men for the drafts and volunteers for the regular army and navy. All he had to do was to present the figures painstakingly kept by the Adjutant General of the Army. The Southern members of Congress must have forgotten what the figures of men for the armies and subscriptions to the Liberty Loans show with reference to Southern States. Otherwise they would have kept discreet silence.

## NOTES AND COMMENT

It is taken account of through a recent instance that women jurors are no more averse to voting for the death penalty than men. In fact, most of the predictions as to what would happen when women voted and attained their full rights have not come true.

\* \* \*

Political prognosticators are in their element. There are grounds for almost any guess as to the ultimate. The Governor has furnished the greatest problem in his stand on the liquor question. Public opinion on this issue, however, cannot be gauged till the votes are counted.

\* \* \*

The Eohippus, first ancestor of the horse, is believed to have existed three millions of years ago. The horse's ancestor is likely to be very ancient, but his successor is so recent that an incursion into prehistoric times is not necessary to locate it.

\* \* \*

Everywhere there is a disposition to give the crockery ship a chance. New England, sanctuary of conservatism and incubator of the wooden ship, says that a craft built of concrete seems no more impossible than did the ironclad monitor, which saved a situation that appeared to be hopeless something over a half century ago.

\* \* \*

There is a satisfaction expressed across the bay that tide lands have been acquired by the State after ten years of litigation. It would seem to be a psychological time to inquire why there should be ten years of litigation over tide lands—or anything else in which a conclusion is important.

\* \* \*

"Two doctors make \$180 killing coyotes." Well, that is different.

\* \* \*

The long-range cannon pointed by the Huns have killed a total of 113 in Paris. This is meager and no doubt disappointing, yet there are sure to be some in Hunland to rejoice, because the victims were all noncombatants, and most of them women and children.

\* \* \*

The announcement that Japan is to turn over sixty-six ships to the United States, adding 614,000 to the tonnage that is now busy in the effort to make the world possible to live in, is a piece of news that ought to confuse those who have been so busy predicting dire things in that direction.

\* \* \*

It is with considerable resignation that the news is read of the Huns venting their spleen on a Hun, albeit one who seems to be more akin to humane people. Prince Lichnowsky, who was the German ambassador at London at the commencement of the war and who criticised the German foreign policy, has been jailed.

\* \* \*

They are making it just as palatable as words are capable of. The good old-fashioned mush has been rechristened "potenta."

\* \* \*

Dropping of teachers in the educational imitations who are tainted with pro-Germanism is proceeding. And the idea that a person is innocent till he is overwhelmingly proven guilty doesn't and shouldn't apply. Rather it should be the other way around. A teacher whose loyalty there is good reason to suspect should be required to prove himself innocent.

\* \* \*

It is well said that a martial law for spies is better than mob law. The country is in danger of acquiring the latter through the halting ways of civil courts.

\* \* \*

It is well said that a martial law for spies is better than mob law. The country is in danger of acquiring the latter through the halting ways of civil courts.

\* \* \*

Down at the big department store, Uniform with striped pants?"

## REFUSE PLACE ON ADVISORY BOND BOARD

## DEPOSED PROF. THOMAS, "SOCIAL PIONEER," NOT DEFENDED HERE

Local Clubwomen and  
Educators Have  
Opinion

### PROFESSOR THOMAS' PHILOSOPHY OF LIFE

I have committed not one, but many indiscretions, but I have done no injury to society nor to the individuals involved.

I hold views and am capable of practices not approved by our social traditions, but which should not interfere with the free association of mature persons capable of planning their own lives and seeking out their own values. My own associations with women have been varied, but always of a constructive, not a destructive, kind.

The explorer in this field of social organization knows that he has a chance of perishing, just as the geographical explorer, seeking the North Pole, knows he has that chance.

a means of protecting and continuing the group. For this reason the marriage institution has been held sacred and will continue to be so held by mankind."

Judge William H. Waite said:

"Such a philosophy strikes at the very foundation of American life, to wit, the family circle. It would mean the abolition of all restrictions placed by the best judgment of mankind about the marriage relationship and the destruction, if carried to its logical conclusion, of best and most sacred interests of the home and the family."

Dr. Solomon Blum, department of social economics, University of California:

"Such a view of life, carried out to its logical conclusion, would result in wiping out all standards. It seems to me that this is diametrically opposed to the best modern thought on these subjects, that is, in maintaining human progress, believe in holding more inviolate than ever in the past the sanctions and prohibitions that have come down to us as the fruit of human experience."

CLOSE SCRUTINY.

"This does close scrutiny. That we should not consider the advisability of change, to meet changing conditions. But it means that we should subject suggestions for change to the closest scrutiny."

If Professor Thomas' words are to be taken as having a bearing particularly upon sex morality, it would seem to me that we are becoming more and more impressed with the need of a strict adherence in these matters to that the philosophers who stand the highest are upholding monogamy as an institution that is beneficial and right."

"Society is based upon 'interference' with other people," said Prof. G. C. Bishop of the Department of Philosophy in the University of California. "If we cannot endure some interference with our personal desires in behalf of the good of the community, we are not suited to live in the community. I do not wish to be quoted at length on this, as I would prefer to give a statement in this connection more careful consideration, and to have the statement issued by

the fruit of human experience."

GOOD OF WHOLE.

"The good of the whole must take precedence over the desires of the individual in any properly constructed society."

"Marriage is primarily instituted to protect the woman and the child, as

The war has retarded the interests of science, rather than advanced them, according to Prof. T. B. Robertson of the University of California, who spoke at Mills College this morning on "War and Science." But the war, he added, has turned scientists to the accumulated knowledge of the last century with the object of putting it to practical use at the present time to save civilization. He continued:

"When the war broke out the airplane was not regarded as a practical factor, but it may prove to be the decisive factor in the war. Suffocating gases were known 100 years ago, and there was a solemn agreement between nations that these gases would not be used in the event of war. Germany may wish and had held to this agreement by the time America has completed investigations on the use of suffocating gases.

"As science has furnished implements for the destruction of man she can furnish like implements for the advancement. Far more difficult than discovery is the education of the masses to the uses of discoveries. We must learn to spend our knowledge and learn to accumulate with the same enthusiasm we are now using it for the defense of civilization."

Merritt will conclude his investigation into the clothing industry in San Francisco and the best regions immediately on his return and proceed to make a public announcement of his findings and recommendations shortly thereafter.

During his absence the public hearings on the fish situation will be discontinued while experts connected with Merritt's staff complete their investigations of the various companies' books with a view to ascertaining profits based on investment and expenses of the individual concern.

Merritt will conclude his investigation into the clothing industry in San Francisco and the best regions immediately on his return and proceed to make a public announcement of his findings and recommendations shortly thereafter.

He will then review the cases of the teachers accused.

Thus abolished, we can see no other way to conservatively protect ourselves than to respectfully decline to serve upon the recently suggested reorganization commission. We would be glad to complete our labors if permitted to do so under the original appointment.

The board of education filed the communication and decided to take up the matter in the committee of the whole at the next meeting.

**Merritt Called to Chicago Conference**

Ralph P. Merritt, federal food commissioner for California, was summoned to Chicago yesterday in connection with important government work. Merritt probably will return the latter part of this week or early next week.

During his absence the public hearings on the fish situation will be discontinued while experts connected with Merritt's staff complete their investigations of the various companies' books with a view to ascertaining profits based on investment and expenses of the individual concern.

## SOCIETY

## News of WOMEN'S CLUBS

By EDNA B. KINARD.

Socially the week is to be a round of teas, luncheons, bridge parties and matinees for the dainty "war brides" or brides-elect. Mrs. John Okell, the former Miss Harriet Walsh, who has returned from her honeymoon, is to be made the inspiration for a number of affairs, while Miss Dorothy Blasdel, fiancee of Dr. Harry Calvin Lind of Berkeley, and Miss Frances Williams, who is betrothed to Henry Perray, are to be extensively feted.

Miss Katherine Maxwell entertained twelve of her intimate friends at luncheon today to meet Mrs. Okell, the affair being given at the home of the hostess' mother, Mrs. John P. Maxwell. Miss Helen Randolph will entertain tomorrow afternoon.

Miss Blasdel was the guest of honor yesterday afternoon at a knitting tea given by Mrs. Helen Huguenin of Berkeley, the hostess entertaining at the home of her parents, Mr. and Mrs. C. L. Huguenin in Channing way. The guests were classmates of the honoree at Mills College.

Another pretty affair planned for Miss Blasdel is the luncheon which Mrs. C. R. Petray will give Saturday afternoon, May 4.

Miss Blasdel is planning her wedding for the month of September.

In honor of her future daughter-in-law, Miss Frances Williams, Mrs. H. C. Petray gave a luncheon for sixteen of the friends of the bride-elect at the Claremont Hotel Saturday, the daintily appointed luncheon being served on the sun porch of the hospitality. Those for whom covers were laid were Miss M. C. Brooks, Miss Jane Knauth, Miss Jane Teeter, Miss Helen Croft, Misses Stella and Helen Klein, Miss Mary Petray, Miss Margaret Nerscova, Mrs. Harry Tuck, Mrs. Ralph Beckett, Mrs. Donald Pearson, Mrs. Claude Fawcett, Mrs. Frank Makinson, Mrs. Edith Williams.

Mrs. H. C. Hill of Stockton arrived Thursday to spend the week with her daughter, Mrs. H. C. Pike of Park Boulevard.

Monday afternoon is the day set aside for Red Cross work by the members of the alumnae and mothers of the Pi Beta Phi sorority. They assemble each week at the chapter house to knit and work upon other branches of the Red Cross auxiliary work.

At the recent garden party and tea given at the home of Mrs. A. A. Moore Jr., in Crocker Highlands for the benefit of the Belgian relief, more than \$209 was taken in, and as there is still more to be received the proceeds will add quite a bit to the sum which the Oakland-Piedmont chapter under Miss Marion Ransom, sends monthly for the relief of those across the water.

Miss Isabella O'Connor will give a musical tomorrow evening in the clubrooms of Adelphian hall, the proceeds to be given to the Alameda chapter of the Red Cross. Miss O'Connor, who is well known as a gifted singer and has studied under European artists, will sing before an audience of friends from many of the east bay cities. Her program is to be one which will both interest music lovers and benefit the Student of vocal culture.

Among those who are active workers in the Red Cross interested in the affair are Miss Gladys Emmons, Miss Edith White, Miss Bessie O'Connor, Mrs. Charles Lux Lewis, Mrs. Harry Weise, Mrs. Alfred Durney, Mrs. William Weinmann, Mrs. Albert Coogan, Mrs. Harold Durney, Mrs. John Parker.

A garden fete for the sock unit of the Red Cross, Berkeley chapter, is to be given Saturday afternoon, May 4, at the home of Mrs. J. M. Hind, 208 Uplands. The hours of the fete are to be from 2 to 7 o'clock, and there is to be dancing in the tennis court. The music, which is to be the big feature of the afternoon, is to be furnished by the Terba Buena marine band and the marine quartet.

Those who are to assist Mrs. Hind are Mrs. Henry Willard Taylor, Mrs. E. Whitton, Mrs. H. P. Faye, Mrs. W. N. Rohr, Mrs. Henry Haines and Mrs. Frederick Winter.

Dr. Frank R. Makinson and Mrs. Makinson will leave tomorrow for Chicago and other eastern cities. They will be away for four months. During their absence, their

### HAIR-COLOR RESTORER

(Guaranteed)

Not by dyeing their hair, because it is not a dye, but through the natural, gradual way in which it restores the youthful color. Ceban will not rub or wash off or stain the scalp. You can apply it with the hair as usual. A delightful toilet requisite which eradicates dandruff and keeps the hair healthy.

Sold by good druggists everywhere on Money-back guarantee—price 75¢.

## News of WOMEN'S CLUBS

## Revelations of a Wife

by Adele Garrison  
(Continued from yesterday)  
WHY MADGE REFUSED LILLIAN GALE'S INVITATION.

California has acquired a new member in this progressive Oakland organization.

The call for the nineteenth annual convention of the California Congress of Mothers and Parent-Teachers Association has been sent out by Dr. Jessie A. Russell, the state president.

The important three-day conference will summon several scores of mothers to Berkshires on May 22-24, the guests of the youngest district within the California Congress. Patriotism is, of course, the dominant note.

Each session will open with an union singing and the salute to the flag. The mothers of California are agreed together that their children shall find in them the ideal of loyal, patriotic citizens.

A considerable time will be allowed for the discussion of the present and future policies of the congress.

A number of amendments are to be offered to the constitution and by-laws, one of the most important part of our national defense.

They are rendering a service of the utmost value. I believe many capable young college women will be glad to take advantage of an opportunity to fit themselves for this splendid service.

The spirit of loyal service shown in America by women has set the pace for the men. We may be sure their response to this call will be so ready that no one in America can say, there is lack of women's nursing.

The American Red Cross is establishing a summer training camp for nurses in which distinguished specialists will give an intensive preparatory course for college graduates. Graduates of approved colleges of high standing who are members of the class of 1913 or belonging to the classes of the last ten years, including 1909, are eligible for admission must be of sound health.

Oakland, Berkeley and San Francisco federations will join together and make the trip to the convention in a special train.

Down Honolulu way there has been organized a Five Hundred Dollar War Savings Club, which boasts a membership of something like 175, but which has ambitions to bring in at least 250 men and women before the end of the year. It is a democratic club, with its volunteer membership on the near level of the investment of \$500. Miss Mary C. Alexander of Piedmont is one of the founders.

It was the Vassar Alumnae which conceived the idea of giving to college graduates of the last ten years training as would give a nurse's certificate for three years in two. Students will have their laboratory work at Vassar during the three months under a faculty of distinction.

The students will be trained under the Red Cross fund, the students paying only a nominal sum for board and laundry.

When the preliminary training is completed the best hospitals of the country will open their doors to the students. They will receive without any expense eighteen months' instructive work. The course will be limited.

The opening of the "Downs and Guts" home pledges \$50 to the "Victory War Fund," which the club women of the nation have established to provide for recreational centers for United States men in France.

Henry C. Petray, principal of the Grant school, has sent out invitations to the mothers of all the students to assemble on Friday afternoon at 3:30 o'clock in the school for the purpose of organizing a parent-teachers' association.

**Lurita Stone On Her Honeymoon**

Miss Lurita Stone, sorority girl, graduate of the University of California, former protege of Margaret Anglin and prominent in bay dramatic circles, was married in "The Little Church Around the Corner" in New York City yesterday to Benjamin Gravewell Fernald, consulting engineer and clubman of New York. The honeymoon is to be spent at Washington, where Fernald has been called for a conference with the United States Shipping Board, and in the Main Woods.

Mr. Fernald graduated from the university with the class of 1914. She was a member of the Gamma Phi Beta sorority, the Pryanana, the university honor society; the Mask and Dagger and the English club. His dramatic success in college brought him into a leading role in the Players Club, San Francisco, with Richard Hotaling. In "The Merchant of Venice" later she appeared with Mrs. Farnham's company. Her return drew to her the attention of Miss Anglin during exposition year and she went East with the famous actress.

After studying in Boston Mrs. Fernald went to New York, where as a member of the Guy Bates Post company in the "Masquerader" she won several successes. In March she joined Mr. and Mrs. Sidney Drew under Miss Drew's direction. Her return drew to her the attention of Miss Anglin during exposition year and she went East with the famous actress.

# FARMYARD POPULATION ON STRIKE

## County Treasurer Kelly May Not Be Candidate Again

Has Not Fully Decided On Course, but Might Support W. Nat Friend for Place

Reporters will lustily greet the morning rays of an Edison incandescent and say by gosh can be induced to scramble all their perchers and get to work an hour before the sun gets up by the simple expedient of switching on an electric light over their roosts. So far and no further can the poultry world be fooled into rising an hour earlier in conformity with the daylight-saving law. But they will not go to bed an hour earlier at night, since the sun regulates bedtime, and the farmers can't very well switch off old Sol.

Because the chickens are governed by sun the farmers have to work an hour longer each day. In accordance with the daylight-saving law the farmers rise an hour earlier when instead of being able to knock off for the day also an hour earlier they have to remain on duty to attend to the poultry, which won't go to roost until the sun goes down. To accommodate those farmers who are thus kept on the job an hour by their inconsiderate poultry meetings of Farm Bureau centers in poultry districts start at either 8:30 or 9 o'clock, instead of at 8 o'clock.

High school girls who live in the country and have to do the morning chores before they leave for school are also inconvenienced by the fact that the barnyard denizens are governed by sun time. On this account Will C. Wood, commissioner of secondary schools, has been asked to extend the opening of the schools from 9 to 10 o'clock in the morning. Commissioner Wood is planning a flexible rule, permitting schools in country communities to make their schedules in accordance with time on the farm than the intent of daylight saving.

High school girls are complaining that the "bossie" refuses to abide by the daylight-saving law and will not permit the milking time taking place one hour earlier. This means, the girls say, that they are prevented from making school connections at the 9 o'clock opening hour.

Commenting on this complaint, Farm Adviser Mark Ladd said that while cows liked to be milked at a certain hour every day, it made no difference what hour of the day that was, and that there would be no trouble in milk them an hour earlier in the morning.

**CHANGE MEETING NIGHT.** At the last regular meeting of Joseph H. McCourt Camp No. 13, U. S. V. V., the members voted to change the meeting night from the third Thursday of each month to the second and fourth Thursdays of each month beginning May 2.

Commander H. P. Lee has returned to active service with the marines and is now located at Mare Island. During his absence Senator Vice Commander E. E. Stibbens will preside.

Hours—Weekdays, 8 to 6. Sundays 9 to 12 M.

County Treasurer M. J. Kelly has not made up his mind whether he will be a candidate to succeed himself, but stated today that "if a good man comes out" he will not be a candidate, although he will continue to take an active interest in politics. Asked if he considered the definition of a "good man," County Treasurer Kelly said:

"Well, I had hoped that William Nat Friend might be induced to run. He would make a splendid man for treasurer and would have a good chance of election. But he will not enter the race."

It was rumored today that David McLaughlin might enter the race for county treasurer. Kelly made no comment upon this other than to state that he does not think in high esteem.

"There are two candidates in the field now, but both of these men have recently been through the harshest uptry courts, which is hardly a recommendation for a candidate for county treasurer," said Kelly.

**NOT FULLY DECIDED.**

"An article in one of the morning papers intimates that I am going to retire from active participation in the public affairs of the country. While I have not fully decided that I will not be a candidate for re-election, I am going to take an even more active interest in all matters pertaining to the good and welfare of the country than I have in the past."

I should not be a candidate if I will engage in some useful occupation, as I have not acquired enough of this world's goods to spend my remaining days in ease, as stated in the article. I have, however, purchased a \$35,000 worth of sheep bonds which represents by far the major portion of my accumulations, which I have saved out of my

"I should retire as treasurer I will do so with the knowledge and satisfaction the few persons that came into the treasury during my incumbency have been accounted for and that there has been no criticism of the manner in which the business of the office has been conducted by myself and my very efficient deputies, and that I command the respect of every honest man with whom I have ever been associated either in business or politics.

**INTEREST IN FRIENDS.**

"The greatest satisfaction I have derived from my interest in politics has been from the pleasure I have always enjoyed in helping my friends and observing people generally. I intend to maintain the same interest in my friends as I have in the past and always be found ready and anxious to do anything that will help them or be for the best interests of the people of which we have a common interest."

Kelly has been county treasurer for twelve years and during a large part of that time was the leader of a group of men who largely controlled public office in Alameda county and the city of Oakland. Should he decide not to be a candidate for re-election it would mean the retirement of one of the nized.

**DOOR TO PRISON  
GATE TO GILDED**  
**2 YEARS IN PRISON 100 PER CENT LOYAL**

The application of Hite H. Grove for probation was denied today by Judge James G. Quinn and Grove was sentenced to serve two years in San Quentin. Notice of appeal was given by Attorney James Cochran and the case will be carried to the Appellate court, where a motion will be made for a new trial.

Grove was convicted three months ago of forging the name of his wife's parents, Matilda and Edward W. Campbell, to a deed of trust to certain real estate on which he secured a loan of \$2500. It is claimed that restitution of the money has been made. Grove has a wife and four children.

In denying probation, Judge Quinn remarked that the conduct of the attorney for defense has constituted a testimony to the profession, they having fought without reimbursement of their effort for their client over a period of seven months.

Judge Quinn felt that a judge adds at the trial and at the numerous hearings on the question of probation, Justice would be better conserves by assigning to the defendant some measure of punishment.

The sentence of two years is considered a degree of leniency.

**REFUSAL TO BUY BONDS COSTS PLACE**

Robert E. Storm, a naturalized German citizen of the United States, lost his job at the Dow Pump Works in Alameda when he refused to buy a Liberty Bond. Storm declined to buy a bond on the ground that he had a brother in the German army and a mother living in Germany, and that he could not conscientiously help the United States war on Germany.

Workmen at the plant threatened Storm with violence, for the plant employees are endeavoring to make a 100 per cent record in the bonding and Storm acted as the first stumbling block to this laudable aim. The management intervened before Storm was subjected to any rough treatment and discharged Storm on the spot. His automobile was run out of the factory yard by hand, by hate fellow-workmen and Storm drove away amid the jeers of the other workmen. As he drove away he remarked that he guessed he could find a job elsewhere. Storm is a mechanical engineer and lives on East Twelfth street, Oakland.

Edward Allen, a San Quentin guard, arrived at the hotel today to claim the last of the "indictments" as his own. According to Allen, "Burton," or as he was known in prison, "George Quigley," had been sentenced to a five-year term from Los Angeles for fraud.

He and Secretary of State Lansing were to confer today over alleged mistreatment of American prisoners in German camps, though the state department had already taken steps to obtain the actual facts and to report on any inhumane treatment.

**Seven U. S. Sailors Held by Germans**

WASHINGTON, April 23.—Germany holds seven American naval prisoners—five from the armed guard of the steamer Cantona, and two from the destroyer Jacob Jones—Secretary Daniels announced today.

He and Secretary of State Lansing were to confer today over alleged mistreatment of American prisoners in German camps, though the state department had already taken steps to obtain the actual facts and to report on any inhumane treatment.

**Woman Injured in An Auto Collision**

Mrs. John E. Goody of Fruitvale is in Fabian Hospital suffering from severe injuries sustained when an automobile in which she was being driven to the home of her daughter, Mrs. Walter Parmer of Claremont, collided with another machine.

Mrs. Goody sustained a dislocated shoulder, a broken collar bone and lacerations of the face and body. Her top support is the only thing that prevented her being killed in the belief of her relatives.

A safe, reliable home-treatment for the quick removal of superfluous hairs from your face or neck is as follows: Mix a stiff paste with some water and powdered dentone, apply to objectionable hairs, and after 2 or 3 minutes rub off, wash the skin and the hairs are gone. This simple treatment is unfilling and no pain or inconvenience attends its use, but to avoid disappointment be certain you get genuine dentone.—Advertisement.

## HABEAS CORPUS WRIT IS ISSUED

A writ of habeas corpus was issued out of the Appellate court today at 2 o'clock, returnable May 27, at 10 o'clock, in the case of Dr. H. E. Franck and nine other German defendants in the "hoch the kaiser" charge, on which they were convicted of having toasted the enemy in Fopps' cafe February 24.

The ten defendants were surrendered at 3 o'clock yesterday and remained in the city jail until released on bonds at 3 o'clock. The bonds were approved by the Appellate court sitting en banc, the amount of the bond being \$1000 for each of the defendants. The bondsmen are William Reichols and Carl Allis.

The appeal was taken by Attorney Joseph F. Lucy from the decision of Judge James G. Quinn denying the release of the defendants on the claim that the complaint on which they were convicted is insufficient in that it does not allege a public offense.

Mrs. Saylor will be a candidate for the place left vacant by the candidacy of Assemblyman C. C. Young, former speaker of the assembly, who is an aspirant for the office of Lieutenant governor. It is understood that Young has given his support to the woman candidate.

Mrs. Saylor has been active in Berkeley as chairman of the women's committee of the second and third Liberty bond campaign and has addressed numerous meetings in behalf of the government war bond. She recently elected president of the Twentieth Century Club, in which organization she was formerly vice-president and is at present head of its war service section. Under her direction the club is carrying on an extensive program of war service and philanthropic work. Mrs. Saylor is the wife of Frank L. Saylor of Berkeley. The Saylors came to Berkeley from Indiana seven years ago. Mrs. Saylor was a leader in club circles in Indiana and was formerly president of the Indiana State Federation of Women's Clubs. For many years she was associated with the educational work in the Indiana schools and was a foremost supervisor of art and music in a number of schools. An active campaign to secure the candidate is being planned by the women of Berkeley. Details of their plans to be announced in the near future.

The Saylor home is at 1031 Oxford street, Berkeley.

**BENJAMIN NOT TO RUN.**

Ray Benjamin, acting chairman of the Republican state central committee, has declared himself out of the running for the Republican nomination for Lieutenant governor. In a statement Benjamin declares that he could not consistently labor as a harmonizer and himself be a candidate for a state office. Benjamin's retirement does not leave the field without candidates for Lieutenant governor.

State Senator Joseph A. Roninger is an announced candidate and also Speaker of the Assembly C. C. Young of Berkeley. State Senator Arthur H. Scott of Oakland has not come forth with the statement promised the newspapers several weeks ago.

Friends of Congressman Julius Kahn, whose name has been mentioned in connection with the gubernatorial nomination, a piece of about

Kahn has been county treasurer for twelve years and during a large part of that time was the leader of a group of men who largely controlled public office in Alameda county and the city of Oakland. Should he decide not to be a candidate for re-election it would mean the retirement of one of the nized.

**FUZZY WUZZY  
CATERPILLARIS  
NOT WELCOMED**

"The festive little caterpillar swimming in one's tea may be all right for some folks, but it doesn't appeal to me!"

(Song of Berkeley's society folk.)

The caterpillar is a wonderful work of nature, and it may be kind to its mother, fuzzy like a feather boa, and even pure of heart, but it is not one of the society's elect just now.

The caterpillar society didn't invite Miss Caterpillar to come to John Cowper Powys, the celebrated essayist.

Only the social sleek were supposed to be there—and Mr. Caterpillar "butted in." So they called the party off.

This is the reason of the postponement of the tea, planned for yesterday in honor of the noted writer and lecturer at the Shirley Turner home, 1229 Taraval Avenue, North Berkeley.

**To Recruit Men to Harvest State Crops**

The County Council of Defense has received a request for the enrollment of willing hands for the harvest work.

A communication was received today calling for the appointment of deputies to receive enlistments in the branch of the service. All farm work is included and there is said to be a great demand for help.

County Clerk George E. Gross, to whom the matter was assigned, says

that persons enlisting in the service may or may not be called upon, but that it is desirable to secure as complete a list as possible in order that every contingency may be met and the food supply of the people not allowed to fall short in lack of hands properly placed and harvested.

Deputies will be appointed and the enlisted gotten under way immediately.

**100 PER CENT IN BONDS.**

The office of County Clerk George E. Gross has attained the 100 per cent efficiency in Liberty bond subscriptions.

The amount subscribed is \$3550. The office of County Auditor E. F. Garrison has been in the 100 per cent class since the early days of the campaign.

**Options for three pieces of property in the hills overlooking Lake Merritt, to be the site for a big tourist hotel and golf links, similar to the Hotel Del Monte, and to be constructed after the war, have been signed by a coterie of Southern California and local capitalists, it is learned today. The capitalists had been in Oakland for several days, under the guidance of James Woods, manager of the Hotel St. Francis, San Francisco, and the hill properties for the proposed resort.**

The location of the land contracted for and the names of the interested capitalists, is being withheld by Woods and the Oakland realty brokers who handled the deal.

**Several of the interested men are stockholders in similar resorts in Pasadena and the south and these, with the San Francisco men, believe such a tourist resort, catering to tourists who arrive at San Francisco and to the smart set of San Francisco and the Peninsula, would prove a highly profitable venture.**

**The proposed resort will involve the expenditure of more than a million. No attempt will be made to start the work until the war is over, according to the proponents.**

**Friends and acquaintances are respectfully invited to attend the funeral services at 3 o'clock p. m., Wednesday, April 24, 1918, at the new funeral parlour of McCreary, 1029 and 10th street, San Francisco, Interment, Woodlawn cemetery, San Mateo, by automobile.**

**Pope, brother of Mrs. J. E. Kirby, a native of San Francisco, aged 20 years, a member of Fraternal Order of Eagles, San Jose, and Alvin Pope, son of St. George.**

**Pope's funeral will take place Wednesday, April 24, at 2 p. m., from the new funeral parlour of McCreary, 1029 and 10th street, San Francisco, Interment, Woodlawn cemetery, San Mateo, by automobile.**

**Friends and acquaintances are respectfully invited to attend the funeral services at 3 o'clock p. m., Wednesday, April 24, 1918, from Mrs. E. M. Bunker, 1029 Franklin street, San Jose, Interment, Woodlawn cemetery, San Mateo, by automobile.**

# OAKS HAVE PLAYED ONLY ONE ERRORLESS GAME IN TWENTY

PERCY AND FERDIE—That's Right, Percy! Give It to 'Em!

By H. A. MacGILL  
Creator of the Hall-Room Boys.

## Dope Book Shows Again That Fielding Is Only Glaring Oak Weakness

Changes in Howard's Infield Should Keep the Boys Right Up With Best of Them

By Carl E. Brazier.

Everything went wrong with that Oakland baseball machine last week. Only one other club made fewer double plays for the week; no other club hit into more double plays; Oakland pitchers fanned fewer batters per game than in either of the first two weeks; Oakland batters fanned more times for the week than in either of the other two weeks, and Oakland batters drew only twelve bases on balls for the week's series, against 24 walks drawn by the Oaks for the first week and 28 for the second week. Put on top of all this the fact that the Oaks batted up only a .219 clip for the week against .286 for the first week and .271 for the second week and the wonder of it is that the Oaks won even two games from the Sacramento Coyotes. And then comes the greatest, "slump of all—the accumulation of 27 errors for the week—more than twice as many errors as the Oaks had made in either of the first two weeks."

### ONE ERRORLESS OAK GAME.

The Oaks have played only one errorless game in the three weeks that the season has run. That was the home game of the season. The Vernon, a team up at the top of the league race, have up to now the best record in the league, but the Oaks have had two other errorless sessions: Salt Lake has played three games without an error, and the Angels are almost in the class with the Oaks—the Angels have played only two errorless games. But one of those errors, Angels' last, was last week, so the Oaks are alone with a record of sixteen games without an errorless day.

But despite the poor showing of the Oaks last week in such departments as double plays, strikeouts, walks, etc., the Oaks had made a good enough showing in the first two weeks to put them in the race for the third place. The Hawks bunch still can assume an air of respectability. Sacramento is the only club that up to date has hit into fewer double plays than the Oaks, and the Oaks have played only eighteen games against 20 played by the Oaks. But Sacramento has made 20 double plays in those 18 games, and is the only club ahead of the Oaks with 17 double kills.

HIT INTO DOUBLE PLAY. The Angels have hit into 23 double plays; Seal batters have hit into 19 double plays; Seal batters have hit into 17 double plays; 13 double plays have been made against Vernon; nine against Oakland, and eight against Sacramento.

Twenty double plays have been credited to the Hawks; Oakland doesn't have experimental games to the credit of their pitchers, but their record is second on the list with 17 double plays; Vernon is next on the list with 15 double plays; Salt Lake 14; San Francisco, 12; and Los Angeles, 11.

Oakland pitchers had their poorest week, with 19 wins, but their record is the best of the week was enough so that Angel and Oak pitchers are tied for first honors, each having fanned 65 opposing batters in 20 games. Sacramento pitchers have fanned 50, thanks to 22 victims among the Oaks last week. Vernon pitchers have 46 strikeouts to their credit; Salt Lake 39, and San Francisco 38.

### BEEF BATTERS FAN MOST.

San Francisco, Salt Lake, and Vernon pitchers are at the bottom of the list in total strikeouts to the credit of their clubs. The same clubs are the easiest strikers in the league, and the Angels and Oaks have fanned the most 55 strikeouts being recorded against the Bees; Seal batters have fanned 57 times; Vernon batters have fanned 58 times; Oakland batters are close to being as good as they are in this respect; Oaks have fanned 46 times; 43 strikeouts have been made against Sacramento, and 40 against Los Angeles.

It will be a walking series in the south this week when the Oaks and Tigers hook up; if the dogs of the first three weeks continue, the Oaks and Oaks have walked more frequently than batters of any other club. Vernon batters have drawn 75 walks; Oakland batters have drawn 64 walks; Salt Lake batters have walked 62 times; San Francisco, 61; Los Angeles, 53; and Sacramento batters have a right of waiting for free passes having been issued to only 49 passes having been issued to the Oaks.

### FOURTH WEEK COMING UP.

Two more weeks and the old Coast League race will be decided. The old Coast League race will have traveled far enough so that a fairly good line should be drawn on the pennant chances. In the first five weeks under ideal fielding conditions, each club will meet each other club in a six-club league such as the Coast League. But in end of the fifth week, the first San Francisco team, Salt Lake not yet having met and will also find that Los Angeles and Sacramento have not met. The first San Francisco series is not booked until the sixth week, and the Angels do not meet Sacramento until the eighth week.

But the series only the fourth week of the race and there is still plenty of chance for changes to come along. So far it looks as though the Oaks, Angels and Tigers are the clubs that are chiefly dependent upon pitching strength; the Seals and Springfield are also dependent upon fielding strength, and Salt Lake, as a club, that will get by chiefly through its heavy hitters.

### NEW FIELDING STRENGTH.

With the addition of Clyde Wares and Stump to the Oakland lineup this week, the Oaks will have the combination of a fast runner, two good fielders, and a good slugger. The Oaks now have the strength that they healthy, fat plugging-up in their bats. Money-back guarantee—price?

### Pacific Coast League

Club	Won	Lost	Pct.
Vernon	12	8	.600
Sacramento	10	8	.556
Oakland	11	9	.550
San Francisco	9	10	.474
Salt Lake	9	10	.474
Los Angeles	7	13	.350

No games yesterday.

**PITT-BELL  
DEBATE HANGS  
ON LETTER**

Whether or not there will be a debate between Rev. Dr. David A. Pitt, pastor of the First Baptist Church of Oakland, and Theodore Bell, attorney of political prominence, about the patriotism of Joshua Sykes, pastor of the Church of the Living God, remains to be determined.

Dr. Pitt has issued a verbal challenge to Bell, but the latter said today that he will pay no attention to the challenge until it arrives in letter form. This will be tomorrow, probably, for Dr. Pitt said that he purposes writing the letter to-day.

Concerning the situation Bell said:

"The Rev. Dr. Pitt phoned me the other day saying that he had conclusive evidence of Joshua Sykes' pro-German leanings. I asked him what it was and he said, 'Sykes did not sing America,' and he hinted at other things. I asked him to incorporate them in a letter, and I would take them up with Sykes, but it does not seem to me that not singing America is conclusive evidence of pro-Germanism. Sykes is an American, but I only know the words to America; I only know a few myself, so for that matter, if he were German, I cannot conceive a good American in Germany standing up and singing Die Wacht am Rhein because Germans about them were singing it. The challenge I made, however, to debate said that I will not accept Dr. Pitt's challenge until I have received his letter."

The finding of a German machine gun or what was alleged to have been a part of one in the ruins of the tabernacle, is easily explained. As I understand it, it was a Maxim silencer presented to J. J. Ferguson, member of the church, by another member who is now at one of the training camps, and after being given to Ferguson he placed it on his bureau as an ornament. I will have the affidavit of this soldier in a few days. As to the German pheasant and German half mark piece which were alleged to have been found in the ruins, I can only say this: There are probably a hundred thousand amateur coin collectors in this country who have in their possession German money, Austrian money, mixed with French and British coins as part of their collection."

Mob lawlessness and violence in dealing with anti-Americans was deplored last night by the Berkeley Defense Corps at a meeting attended by 100 or more prominent residents of the college city.

The organization, through its president, Victor J. Robertson, denied responsibility as an organization for the burning of the tabernacle of "Rev. Joshua Sykes last Friday night."

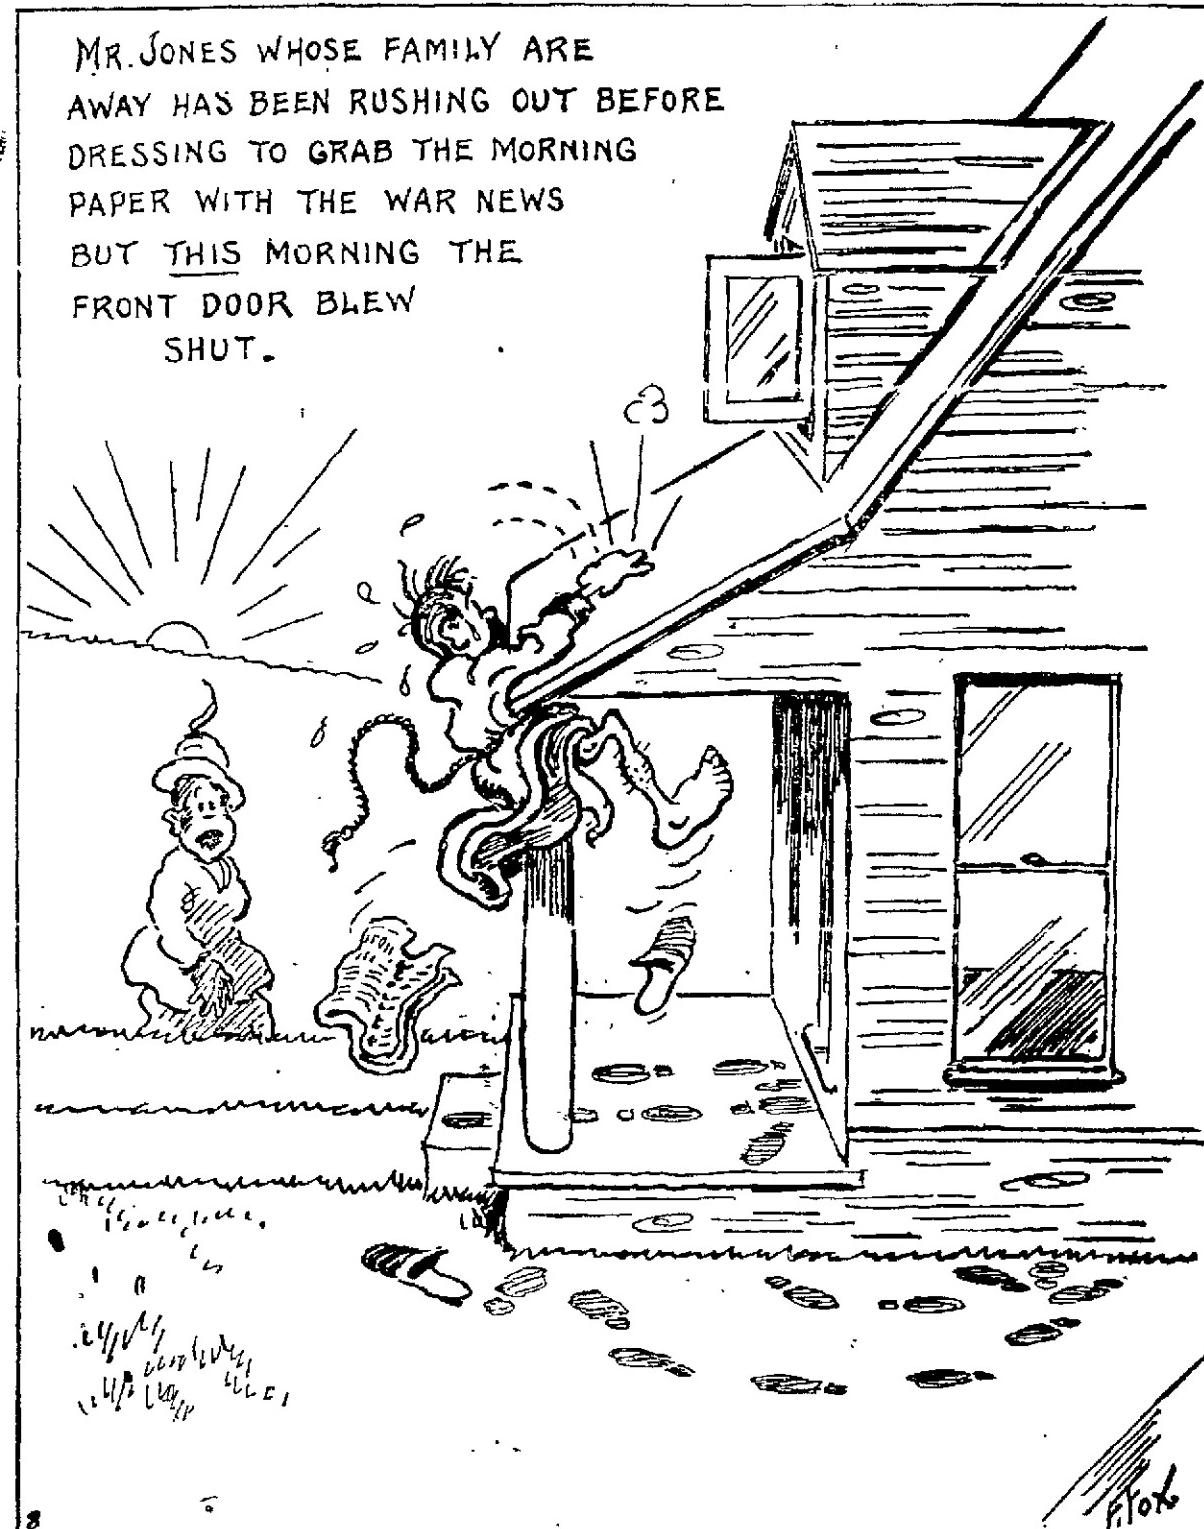

## AGAINST VIOLENCE.

"While we stand for patriotism and the stamping out of everything anti-American, we do not countenance or approve violence in dealing with offenders," declared George R. Knowles, the secretary of the organization. "While as an organization we did not lead this mob in attacking Sykes, we do not deny that individuals of our body participated and were pleased at the result."

Knowles declared at the meeting that care should be taken in arousing sympathy for disloyal citizens through the publicity of the bay region. "While we believe that individuals should denounce lawlessness and should preach against mob rule, still the actions of any class of people opposed to the aims and spirit of our country should not be condoned in any way, for that is the thing we are trying to stamp out," was his statement.

Resolutions calling on Congress to pass immediate laws to cope with actions of

**FIREMEN PRAISE  
WORK OF PRIEST****DIG UP YOUR  
OLD ATHLETIC  
KIT FOR ARMY**

The enlisted men at Camp Fremont are in immediate need of more boxing gloves, baseballs, masks, bats, and other articles of an athletic character, and there not being sufficient funds in the hands of the various army units to purchase the articles at the present time, the athletic officers have appealed to the War-Camp Community Service, Room 1655 Phelan building, San Francisco, to request donations from the general public of any sort of athletic articles which may be lying around the homes, either discarded or not in pressing use.

Articles will be called for by the War Camp Community Service volunteers upon telephone advice. The telephone number is Douglas 1357. In a statement from headquarters to the War-Camp Community Service officials, the athletic officers state:

"We are in need of athletic material of every kind and we are desirous of drawing some from the community. The general public should be told that boxing is being pushed in the Army, not merely as a means of recreation for the men, but also as an absolute necessity in order to train the men to take blows without quitting.

In fact a very special reason for boxing in the army is that in addition to the flexibility of arm movement which results from it, it teaches the men to keep thinking about giving blows across and not to worry about the blows they are receiving."

If a surplus of articles is received, they will be distributed to the enlisted men at Naval Island, Goat Island, Presidio and Fort MacDowell.

**Will Aid U. S. to  
Fight Propaganda**

America's efforts to combat enemy propaganda will gain new vigor with the silent campaign to be waged by the motion picture theaters by means of official U. S. war films. The tremendous work accomplished in training our fighting forces is visualized in detail in the official films.

Theaters representative of largely separated districts throughout the State are showing United States war films on the current week's program.

Emil Kehrlein Sr., manager of the Kinema theater, has contracted for the entire series of government weekly film issues, consisting of twenty-six one-reel subjects. This week, "The Recruit of 1917," giving detailed views of the making of a soldier for service in France, is among the features of the Kinema bill. Other C. O. and picture houses will exhibit the war films in the near future.

Forty-five thousand feet of this government-made film arrived from Washington, D. C., during the week, and was reviewed by A. H. Naftzger, vice-chairman, State Council of Defense; Sol L. Lesser, chairman division, U. S. official war films, and other members of the committee for distributing the film throughout California.

All officials of the film division serve in voluntary capacity. Offices are located at 18th and Golden Gate avenue, San Francisco.

An announcement has been made of the appointment by Governor Stephens of a publicity committee consisting of the following newspapermen to act with M. J. Cohen, director of publicity: Thomas Nunn, Examiner; Walter Anthony, Chronicle; Curran D. Swift, Call-Post; Fred Goodell, Bulletin; Eugene Cohen, Daily News; T. A. Church Moving Picture World, and W. Harold Wilson, Exhibitors' Trade Review, assistant publicity director.

**Grossman's Is Not  
a Branch House**

Due to an error, Grossman's, a well-known Oakland establishment, was listed under "branch house" in a recent Liberty Loan roll of honor. Also credit was given to the firm for a \$1000 subscription when it had purchased \$2000 in Liberty bonds. Grossman's is an Oakland establishment and not a branch house.

**ASKS ALL IN  
STATE TO RALLY  
LIBERTY DAY****FIGHTING COCK  
FOUND TO BE OF  
SOME BENEFIT**

When a steel-spurred fighting cock belonging to P. C. Cahill of 375 Angelo street, Melrose, gets the ax within the next few hours, Cahill is going to buy a Liberty Bond. Such is his promise to Captain Thorvald Brown of the Melrose police station. If Cahill survives the anticipated conflict, he will buy two bonds as per agreement.

Cahill visited Captain Brown and asked for permission to discharge a revolver on his own premises.

"What for?" asked the captain.

"I want to shoot a game cock that has terrorized the neighborhood," explained Cahill.

"Can't you do it in the old-fashioned way, with an ax?" asked Brown.

"That cock has got my goat," said Cahill. "And to tell the truth I am afraid of him. He has steel spurs and is a fighter."

"If you insist upon killing him, buy a Liberty Bond first for you will be depriving us of a fighter. Then, if you live to tell the tale, buy another Liberty Bond and you will help save the lives of other fighters."

Cahill will go after the fighter with an ax, with a Liberty Bond guaranteed that he'll win.

**G.A.R. AGAIN TO  
STEP TO WAR  
TUNES OF '61**

"Tramp, Tramp, Tramp, the Boys Are Marching," and other martial airs that "stirred the blood of the 'old brigade' may come into their own again, supplanting the war songs born of the present world strife, when veteran soldiers of California and Nevada and their women helpers arrive here to attend the department of the Grand Army of the Republic, which will be in session from May 7 to 10. Bemedaled heroes will meet again to recount the stirring events of their soldier days, and to regret they can't be up and at it once more—an inspiration to the yet untried boys in khaki and navy blue.

Oakland will be given full opportunity to display her patriotism and her appreciation of those veterans of former wars. Patriotism will be the keynote of the convention, and this spirit will be carried out in parades and in great public gatherings under the auspices of the G. A. R. Local branches of the G. A. R. will be assisted in entertaining the visitors by civic authorities and different organizations.

Preceding the opening session of the encampment, a reception for the ladies of the G. A. R. will be held in the Municipal Auditorium ballroom, Monday evening, May 6. Grand Army of the Republic Night will be celebrated in the Municipal Theater, Tuesday, May 7, when the delegates will be given a civil welcome. Starting with a parade in the morning, the encampment will carry through its busiest day on Wednesday, May 8. In the afternoon of that day the Women's Relief Corps will present a flag to the Technical High School. Later that afternoon Berkeley will welcome the G. A. R. and affiliated organizations in the Greek Theater. Citizens' Night will be celebrated in the Municipal Auditorium, Wednesday evening. On Thursday evening, May 9, receptions will be given by the Women's Relief Corps and to the department commander and staff by the affiliated organizations of the G. A. R., in Hotel Oakland. Dancing will close the program for that day. Idora Park will entertain the delegates on Friday May 10, the closing day of the encampment. The Sons and Daughters of Veterans will give a dance in the Auditorium ballroom that evening.

**CONNOLLY FUNERAL**

The funeral of Edward Connolly, recently deceased, Connolly was born in Ireland 161 years ago. He died at Our Lady's Home in Fentilly yesterday. Connolly had lived at the home for more than forty-one years. Little is known of him except that he was an old-time jockey. He had no relatives and was a bachelor.

**Oakland Woman Thinks****She Can't Talk Enough**

"I had gall stones for 14 years and suffered severely from gas, colic and indigestion. Doctors wanted me to go to the hospital, but I took Mayr's Wonderful Remedy instead, and am now feeling fine and better than I ever did. I can't talk enough about this remedy. It is a simple, harmless preparation, that relieves the catarrhal affections from the intestinal tract and alleviates the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince any of money refuted. Esgood's Dept. Drug Stores—Advertisement.

**BANANA FAMINE  
HITS OAKLAND****Whelan Will Not Be  
Put on Trial Again**

Commuters with an eye for the novel to relieve the monotony of their daily trip across the bay find it in a new type of government dredge that has started operations in clearing the channel of debris of feet at the mouth of Oakland harbor. With its tanks loaded with mud from the bottom of the harbor, the dredger makes hourly trips to middle of the bay under its own power and unloads the mud. Several schooners have lately grounded at the harbor bar, which has filled in considerably, since no dredging has been done there for many months. When the dredger completes its work the harbor mouth will be deep enough to permit large vessels to enter without danger of grounding.

**Whelan Will Not Be  
Put on Trial Again**

Members of the city of Oakland and now a soldier in the army, will not be tried again on account of the death in Dublin canon of Mrs. Anna Mangan in an automobile accident over a year ago. The district attorney's office having dismissed the charge of manslaughter pending against him. The jury in the trial of the case last August reported a disagreement. Mrs. Mangan, of San Francisco, was in a carriage, driving along the road when the machine ran into her. Whelan lost his position as a deputy city clerk for having a municipal machine out at night without authority.

**Writers' Club to  
Give War Benefit**

A benefit for the Armenian-Syrian relief will be given under the auspices of the California Writers' Club on the evening of Friday, May 3, at the Oakland Civic Auditorium Theater. The program will be largely musical. The Minetti String Quartet will render several selections and a well-known tenor has been secured. It is further promised that a speaker of national prominence will lend his support to the success of the evening. The need of the cause and the excellence of the program should leave no doubt in the mind of the public as to the worth-while character of the entertainment.

Several retailers bought large quantities at bargain prices, and are planning to offer bargains tomorrow for the market day retail trading. Potatoes sold strongly today, but remained at the old price. Commission men are working on the market when few sales were made. Today the canneries refused to "clean up" the market as usual, having a surplus of goods on hand now to take care of. The result was an enormous quantity of good asparagus without buyers.

If a surplus of articles is received, they will be distributed to the enlisted men at Naval Island, Goat Island, Presidio and Fort MacDowell.

**Unity Club Meeting  
Tomorrow Evening**

Unity Club will hold its last open meeting for the season tomorrow night at 8 o'clock, when Rev. W. D. Simonds will deliver the last of his series of lectures: "Sacred Cities of the Word."

The introductory program will consist of an address by Robert Robertson, and special music will be furnished by Miss Eva Murphy and D. Parsons.

The public is cordially invited. Star-King Hall, Fourteenth and Castro streets.

**VOLUNTARY BANKRUPTS.**

SAN FRANCISCO, April 22.—The voluntary bankruptcy petition of Jessie V. and Alice Cannon, 409 Washington street, Point Richmond, was filed in the Federal District Court today listing liabilities of \$362 and no assets.
